Proof here:

Spoiler [\(Click to View\)](#)

Because we all made it into 2017 and because today (1st Jan) is my birthday, I'm going to be giving away a 3 month subscription to 3 different people selected randomly to show my appreciation to this community for giving me a platform to provide my service. A total giveaway value of AROUND \$20 USD.

What's up for grabs:

All three winners: Quarterly plan (valued at ~\$6.50)

There are no requirements to enter, simply post whatever you want below, there's no restrictions on how many people can enter either. The only condition is that you are L33t/Ub3r.

I will draw the winners using [a random number generator](#) (your post number is your entry) on 10th of January.
