Thread: [Skype Group - Make connections, research, learn new skills, share knowledge](#)

**Motiv** - January 1, 2017, 4:35 pm

After I resigned from leading the official group Titans, I went away from HF for a while. It's time to come back and share some knowledge and get back into the scheme of things for me, and I'd love to make some new connections.

I'm going to create a Skype group with anyone who is wishing to join.

The only rules are you act your age (or older,) and be respectful.

PM me your Skype if you'd like to join.

Hello,

Im interest to join your group, If you are still taking people in.

I think I don't have pm yet, When I got it ( Think there is a rank system or something ) New guys can't pm etc.

I will be there when I got it ! :)

Im friendly and respectfull person, Who is really motivated to learn new. Only What I know is HTML/CSS and bit java. Learning group like this would be really cool
