Thread: [Would anyone be interested in sharing a private VPS/VPN](#)

skelly76 - January 2, 2017, 6:23 am

Do any of you share a private VPN with another member here?

I'm going to buy a VPS with decent specs but I won't be using it 24/7 so I'm down to have another user or two share it with me. Like \$3 a month each.

Price is fair, I won't accept any BH shit. Would anyone be interested in sharing?

DevNet - January 2, 2017, 6:29 am

Why don't you just get a cheap vps from lowendbox? Plenty for \$3 a month

Still deciding. I mean it's \$5 for a DigitalOcean server so that's what I'm leaning towards.

PartTimeNinja - January 2, 2017, 7:42 am

There's no real point to sharing a VPS, specially such a small one. It'd make more sense if it was dedi server.

Gradient - January 2, 2017, 7:45 am

I'll give you a free VPS. It has over a month left. Send me a message.

Jopemeister - January 2, 2017, 7:46 am

i used to have a 2.50/m OVH vps. worked perfectly
