Thread: [>> How To Make \\$100,000,000,000,000+ USD In 69 Seconds ~ \[OMNI SLAYER MONEH V2.0.3\]](#)

Xutdes. - January 2, 2017, 8:22 am

Hello,

LETS MAKE \$100,000,000,000+ TOGETHER
THE ONLY EBOOK YOU'LL NEED TO EVER BUY FROM HF
PROVEN TO WORK BY PROFESSIONAL EXPERTS
MUCH MONEY, MANY DOGE, SO SEXY

So I recently finished writing my "How To Make \$100,000,000 USD In 69 Seconds" eBook. I'm sure it'll be a success here, as how to make \$1000s in a day are getting really old and saturated. Many people will benefit from this guide.

What I wanted to ask is, how much should I price this? I thought like \$1.99 (well over what the eBook is worth tbh, need to make a profit). Plus, how many copies shall I sell only? (you know, I'll just put a ONLY 2 COPIES LEFT thing on top of the thread that never changes.. really old marketing tricks.

Above all, I think I should also find a couple friends who can vouch for me and post inspect elemented screenshots.. I'll pay them like a dollar each, which is probably more than what they'd make using the actual method in the ebook right?

Thanks guys! I'm sure this will be a huge hit in the market.. I also need some 50 bucks to get a sticky.. 1HesYJSP1QqcyPEjnQ9vzBL1wujruNGe7R (thx so much I might send you some 100 bucks back when i be raking 10000s soon).

Well if it hasn't been clear enough to you, I was just trying to make a very, very solid point. I'd rather be sarcastic and present it in a rather humorous way than just complaining. It's proven, to me at least, to be a more desirable method communication.

I know that people have long called out for change to the marketplace and removing these shitty ebooks, but sometimes you have to talk, and keep talking about it until action has been taken.

"Threads, posts, and characters in threads and posts that are non-contributive, are non-supportive, and are generally incoherent fall under this. This includes but is not limited to the following variations and instances:

Avoiding character requirements in a post by adding empty characters, special characters that do not appear when posted, fillers, useless text (e.g. "35 char", "bump", "msg2short" or "tooshort") or a ridiculous amount of smileys to bypass the limit;

Explicitly repeating what another user said;

Posting of memes as an answer to the topic;

The intentional use of broken English (e.g. Dolan Speak);

Trolling; and

Quoting posts without adding to them.

Other cases are at the discretion of the staff member who receives the report. Note that administrators, Staff, Mentors and moderators are not subject to this rule in the sections they moderate as they do not have a character limit to begin with."

As much as this may seem funny to you, it is trolling which is against the rules and these type of threads are made too often that the joke has now died.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

The last member who complained about today's marketplace got rep killed.

Honestly, if you use your brain, you'll get through it easily.

and I am not going to go into details about that...

@OP

Although you stated that the intention of this was a harmless joke, I would delete it.

I'm not complaining so much as trying to make a point. But I'll take what you just said into consideration and close this thread.

Thanks!
