I love it man. I just think you should try to use a different bg so it doesn't look so blended with the logo.

10/10 awesome!

This is really nice, good shit.

Your logo is very transparent and simple. I like it :)

I think you should try to stylize ngrycla text a little more or possibly give it a bit of a \ / slant or something because it looks a little out of out of place in my opinion. The mascot was done very well no comments there. Color choice goes well with each other and the image is very recognizable so that's good as well. Over-all you've done a very good job.

Ahh thanks you for taking the time to write up this feedback. I do somewhat agree the text could do with something doing to it. I will go back to it and see what I can do.

Cheers

Can I ask how you made this?

Was it using templates or did you make it from scratch?

I'm always amazed at how people make graphics.

Thats really nice man. If i needed a logo i would totally buy it from you.

Novica - January 5, 2017, 3:05 pm

Personally, I'd add some shade(s) to the text(or any kind of details really).

Beside that, everything else looks great.

Good job man. :3

Well, pretty good start.

The pirate is SUPER lost to me. I think with these eSport LOGOS, it is sometimes hard to remember some rules for logos.

Being super simple and easily read is one of them and this is pretty lost to me.

Think you could just change up some colors and make some adjustments to make it really pop.

Overall, nice job man.

no offense dude...

this is awful....

sorry

I really like the typography choice. It plays nice into the whole juxtaposition between the type and the face.
