Will be adding proof as I going on but This was the deal:

What happen was we did these deals on skype which confirmed on hf and the venmo he sent got my account frozen and he won't reply back to me. Hopefully he resolves this but he hasn't messaged me over 24 overs and Vemno has emailed me back telling me my the payments are reversed so I'm scared. Don't really want to take another L. I do have his id which is why I don't understand. Matching his account. So anyone that can help me please let me know via pm. Be Careful.

Agreed to the deal:

I'd put his UID in the thread title and link his profile in the thread.

Do not forget to add him to the dispute database.

It'd be helpful if you put [img] tags around the images to save time, just a suggestion.

Everyone knows Jeff Gordon's UID? 24 obviously

All jokes aside, sorry your deal went south OP. Good luck getting this resolved!

Venmo isn't good with potential fraudulent transactions, they freeze you for the OTHER person chargingback or whatever. Wouldn't keep using it if I was you for HF exchanges.

if u have his ID ure all good m8, if its legit anyways....

Riyu- - January 6, 2017, 7:41 pm

Yea I've been fucked by venmo as well.

Venmo won't do anything and if OP doesn't refund you then you're shit outta luck.

He sent me a PM looking to complete my exchange from BTC --> PayPal.

After seeing this, he would've most likely reversed the transaction through PayPal to screw me over.

Thanks for posting this, you saved my butt, Cokeboy.

You saved me as well, he PM'd me looking to do my BTC for his Zelle. Thanks
