Thread: [Compilation of ALL user group bars \[Updated\]](#)

Lante - January 4, 2017, 1:21 pm

Notify me if I'm missing a user bar - There are currently 153 UBs

This is a remake of my previous thread as I wanted to re-order the listing and add placeholders for the future.

New groups since the group sales have also been added.

I made this compilation to share with you the many groups that once existed in this community.

All images were taken from HF's Wiki, uploaded to Imgur and then sorted as seen below.

Think back of some of the great contributions, overall quality, expertise and what else these groups once represented.

Special thanks to [Vanill?a](#) for helping me look for missing user bars.

To all current group leaders, and all future group transformations:

Think of what you stand for, wish to mean towards the community and what kind of legacy you wish to leave behind, if any at all.

They were sold and rebranded.

What happened to titans? I thought they were still around the last I checked, I checked the groups tab and they're not there anymore. What group ended up replacing them?

All groups not listed in the current groups list have been rebranded somewhere in the past and are now one of the current groups.

Funny to see how the quality went up as time went on. Great share OP

Thanks. Quality did went up but I personally liked the way UBs were created a few years ago slightly more.

O.G. userbar base died years ago. </3

Plus now there's always at least two current usergroups that either use a very similar design or (more prominently) the same fucking color scheme.

I thought of it, but the HF Wiki does not provide all of the information I require, the recent groups haven't even been added to the wiki yet (writers???). If I can find a few OG members with a lot of

knowledge of the history or ask past group leaders, maybe I'll be able to add a substantial amount of dates.

Lante - January 12, 2017, 12:12 pm

Updated the list with Equilibrium (new) and Riptide (past) and changed the order of the current groups, most recent ones are at the top.
