Thread: [\[League of Legends\] Gifting Service Giveaway \[EUW Only\]](#)

Riley - January 4, 2017, 7:01 pm

Hey there,

In order to promote my future services, I'd like to give back to the HackForums community in preparation for that as well as make some people happy! Unfortunately, this contest is only available to EUW players on League of Legends, soon enough I'll be able to do NA.

Process:

- Your post number is your entry number for random number generator
- Once I add you on my friends list, we can either play a game (Co-op vs AI) or wait a day before gifting
- Only enter once, double entries will result in disqualification

Requirements:

- No usergroup requirement, anyone can join.
- 100+ Posts
- Positive Reputation
- No open scam reports or disputes
