Thread: [Bitcoin rising/dropping threads](#)

GloryToBe - January 5, 2017, 9:25 am

Why are people making threads everytime bitcoin drops a little/increases a little? Like if it reaches 1k then that's fine, but there's no need to create a thread everytime bitcoin increases/drops by \$100 because everyone can go look at preev.

Well thats because thats the currency most of us use... why post a thread about your wife giving birth? basically the same thing lol we all know that its a small human being so whats the point of saying your wife gave birth same goes with bitcoin it just happens

Yes, that's why there's something called preev.

minimalist - January 5, 2017, 9:31 am

Preev is fucking dumb, just head over to the exchange that you use and check the price there.

Yin Yang - January 5, 2017, 9:32 am

It's the aftermath of the price dropping that's the problem, like you stated. Investors and people who have BTC can obviously check the prices. But it's more so on thoughts and opinions about it too

Well obviously discussion on the same topic can be redundant when people are just predicting if it's going to crash or go up.

Pain - January 5, 2017, 9:34 am

Woahh it dropped a lot.
Just woke up and checked

Nebula20 - January 5, 2017, 9:34 am

> complains about too many threads about BTC

Like mentioned before, a lot of people actually care about it.

funtela - January 5, 2017, 9:34 am

Because people like to make threads about anything just to get attention lol. It's fine to make a thread if it drops like \$50+ but people are making threads every time it drops another dollar. Either way there's the [Crypto Currency](#) section for that.

SIM-1472198 - January 5, 2017, 9:36 am

Almost a 100\$ drop not good lol should have sold my btc.

The Pokémon go ban threads were much worse than this case lol. But at least they were in the sub forums like they should have been

My point exactly, I'd say more than \$50+.

That drop is because of a lot of people selling before you did.

Exactly lol. Imagine the Lounge if there wasn't a sub forum during the Pokemon Go hype. ?

There were still a lot of Pokemon GO threads that went to the lounge during the hype.

Let's move all BTC discussions to the [Crypto Currency](#) section. :)
