Thread: [Text link on 4 year old Android website for link building](#)

Riddle Maker - January 5, 2017, 10:16 am

Giving away 3 free rel nofollow text links on a 4 year old Android website with outdated content. This is only for link building purposes, mostly for people who offer services on HF to increase backlinks for their clients. Rules to follow to grab at this offer is simple.

- No adult websites.
- No gambling websites.
- Must be L33t/Ub3r.

If you wish to donate some BTC to me, that's fine but not necessarily needed. First come, first served.

One spot has been reserved for the top poster (he hasn't come online yet).

Two more spots open.

One more free text link ad to go. Let me know if you want the final one.

2 spots are still available (Wyld never messaged me back).

All spots have been taken. Ended up giving away an extra spot too. This thread can be closed now.
