I am not directly affiliated Ethereum VPN. I have been given an amount of free copies to spread the word.

So which one is it?

I mean, I already have a premium VPN for 60\$/yr that respects me as much as I respect them, so I don't need this service, but you might wanna clarify that.

Sorry for mixing up the terms. What I'm offering is free premium VPN service for a number of days. 3 days to be exact, and if you like the service, you can continue using it for a very reasonable amount.
