LIMITED TIME ONLY - BUY IT NOW - 4 DAYS LEFT!

Do you want to Pay with PayPal? PM me!

(Jan 29, 2017 09:44 AM)affluentone Wrote: [\[CITE\]](#) Just received my copy through payment of paypal, which delivery itself was extremely quick... like < 5m.

For \$8 and a free pack, I mean why wouldn't you buy it?

+ The pack

---- Tons of pics 250+ a lot of teasing/provocative stances with a few different outfits/lingerie, and a couple verification pictures to match. Has nudes but not as many. Contains a couple of videos as well.

---- The model is an amateur who is attractive and easy to make bank off of.

The book is rather short, but is to the point and delivers the content very well. A few grammatical errors, but they're easy to overlook. It starts you from zero knowledge and builds you up to how to solicit conversations and how to process a sale. It goes in-depth towards handling timewasters/none buyers and the common phrases these douche canoes use when starting a conversation. The books purpose is to build you into a novice and allow you the room to develop your own methods. The books is very well worth the price tag, do not hesitate!

The price:

The price is really damn good, 5\$ it's almost free, you will get your money back in no time. Also it comes with an awesome pack, I will talk about it later.

The book:

The book it's short, but really on the point. There is not way you won't understand it's content, only if you're braindead. It has everything you need to get started, from what you need to install to setting up your profile, methods of getting traffic, and how to deal with all kind of people(timewasters, buyers, nonebuyers etc.) , but the most important in my opinion, it teaches you how to deal with people that saw you somewhere else(saturated packs).

The pack:

The pack is perfect for someone who just got into e-whore. It has a lot of photos, all sorted, so you don't have to do that by yourself. It also comes with verification photos and what it's best in my opinion is that it comes with 2 high-quality videos, which you rarely see in the free packs.

Last word:

The book it's perfect for people that wants to start e-whoring, it has everything you need, and it's dirt cheap, totally recommend. I doubled the money invested in like an hour: <https://imgur.com/a/Cdxz6> .

I also vouch for VBS, he is the person you want to do business with.

Good luck selling the book further! ?

After a quick look i can say the ewhr pack is ok, method looks solid and OP is straight to the point leaving you with examples on his own conversations explaining in detail what just happened, aswell as leaving a ton of tips coming from his experience as a ewhore so you don't have to reinvent the wheel again. It's certainly one of the only packs that leave you without a doubt of what to ACTUALLY say.

I will go live with this method later and update

I'll start by saying that this is my first review ever so bare with me.

The price:

The price is really damn good, 5\$ it's almost free, you will get your money back in no time. Also it comes with an awesome pack, I will talk about it later.

The book:

The book it's short, but really on the point. There is not way you won't understand it's content, only if you're braindead. It has everything you need to get started, from what you need to install to setting up your profile, methods of getting traffic, and how to deal with all kind of people(timewasters, buyers, nonebuyers etc.) , but the most important in my opinion, it teaches you how to deal with people that saw you somewhere else(saturated packs) .

The pack:

The pack is perfect for someone who just got into e-whore. It has a lot of photos, all sorted, so you don't have to do that by yourself. It also comes with verification photos and what it's best in my opinion is that it comes with 2 high-quality videos, which you rarely see in the free packs.

Last word:

The book it's perfect for people that wants to start e-whoring, it has everything you need, and it's dirt cheap, totally recommend. I doubled the money invested in like an hour: <https://imgur.com/a/Cdxz6> .

I also vouch for VBS, he is the person you want to do business with.

This helped me scratch up on a few basics which is nice. But if you just started ewhoring then go and grab this guide you won't regret it.

Guide is decent for starters and for people who want to re learn the basics.

Pack is great I am switching to it myself tonight.

Thank you for the feedback man, I really appreciate it. ?

Just received my copy through payment of paypal, which delivery itself was extremely quick... like < 5m.

For \$8 and a free pack, I mean why wouldn't you buy it?

+ The pack

---- Tons of pics 250+ a lot of teasing/provocative stances with a few different outfits/lingerie, and a couple verification pictures to match. Has nudes but not as many. Contains a couple of videos as well.

---- The model is an amateur who is attractive and easy to make bank off of.

The book is rather short, but is to the point and delivers the content very well. A few grammatical errors, but they're easy to overlook. It starts you from zero knowledge and builds you up to how to solicit conversations and how to process a sale. It goes in-depth towards handling timewasters/none buyers and the common phrases these douche canoes use when starting a conversation. The books purpose is to build you into a novice and allow you the room to develop your own methods. The books is very well worth the price tag, do not hesitate!

My eBook is (as you can read in the vouches).. full with tips, (basic) eWhoring method, screenshots, approaches and more.

No chance that this will be saturated, because I sold it MANY times before and I didn't hear you complain when you bought it.

PM me if you got any questions (further), but don't post bullshit.

Another thanks to this user.

REALLY tried out his ebook today and earned this in just over an hour:

Not a huge amount but i haven't been constantly ewhoring, i took a lot of breaks so really it was about 30 mins worth of work.

Spoiler ([Click to View](#))

Support is amazing too.

I just started ewhoreing recently, but it seems like everytime I mention PayPal, I stop getting responses. Any tips I should know about? I understand people use Amazon gift cards but i'd rather have cash. Thanks for any input :)
