Thread: [Looking For an Ideal Gallery Template for a Jon Snow Lookalike](#)

Effexion - January 7, 2017, 7:13 am

A good friend of mine is a Jon Snow lookalike that has had TV appearances on channel 4 as well as various international gigs and com-cons. I have offered to help him with his website and looking for something that would really fit the GoT theme.

Any ideas?

What Ashley posted looks awesome, could just cut bits, duplicate bits etc how you want to do it.
