Thread: [Monero CPU & GPU Miner Builder | make money with every install | Only \[45\\$\]](#)

Tee Plow - January 7, 2017, 1:26 pm

Silent CPU & GPU Monero Miner Builder

it's coded in vb.net and has .2net dependencies !

Features :

Startup Install

Persistence : If user deletes the startup registry key, the miner will write a new startup key immediately

Anti Sleep : Prevent the machine from going to sleep mode

Silent : wait 5 mins of idle time before start mining and stop the miner when there is activity

Botkiller

Anti VMware

Mutex : This guarantees only one instance of the miner will run per PC

Auto GPU Detect (Nvidia or AMD)

Screenshot :

Now CPU + GPU Builder For just 45\$!!

Whoever has slaves using their RAT or botnet, could have them all silently mining Monero for him.

Tee Plow - January 17, 2017, 1:30 am

(Jan 16, 2017 04:02 PM)Lante Wrote: [\[CITE\]](#) Whoever has slaves using their RAT or botnet, could have them all silently mining Monero for him.
exactly ?

AltijdWat - January 17, 2017, 1:49 am

How much will this make +- if you have like 2000 on your RAT ?

Tee Plow - January 17, 2017, 2:01 am

(Jan 17, 2017 02:49 AM)AltijdWat Wrote: [\[CITE\]](#) How much will this make +- if you have like 2000 on your RAT ?

the average pc will get you 40-50H/s so that's 80000H/s for 2000 Bot
u will earn 9 xmr daily or 90-100\$ daily
if your bots are 24h/7 connected ofcourse

AltijdWat - January 17, 2017, 2:13 am

Woow thats sounds good! ill come back later and maybe gonna buy your miner ;)

Jus' sayin, that wouldn't work because XMR is a Cryptonight based currency whereas the SGMiner is a Scrypt algorithm miner which is supported by LTC but not XMR etc..

But wouldn't be a bad idea if LTC mining was any good :(

LS RX7 - January 20, 2017, 5:20 pm

(Jan 20, 2017 06:20 PM)LS RX7 Wrote: [\[CITE\]](#) Weird cause I'm using sgminer to mine xmr
Really?

<https://bitcointalk.org/index.php?topic=653467.300>

First to replies on there, its a Cryptonote coin therefore uses the Cryptonight algorithm, if you are mining XMR with a Scrypt not Cryptonight miner I'll crap my pants 0.0

I'll look into it tommorow, too lazy right now huehuehue

(Jan 22, 2017 04:15 PM)ryanallen Wrote: [\[CITE\]](#) looks hq bud, glws. What are the virus detection rates?

it's 4/35 right now !

<https://scan.majyx.net/scans/result/2d698cf57b7ac756bb5ef9f1f10b5f0e96c08ed5>

vladvilcu2006 - January 23, 2017, 1:36 pm

Hey, This looks really interesting, I was wondering, what is the detection ratio of the miner.exe (I presume you use that engine for the CPU miner), since I know that by default it is a 12/35, I'm just wondering if you've done anything to decrease the detection ratio since its the actual miner..

Thanks in advance ?

Baitable - January 23, 2017, 1:40 pm

Jus' sayin, you can get rid of that GEN and Norton detection by using an empty resource file and a

more HQ icon, Bokehlicia icons do the job perfectly!

Kisame? - January 23, 2017, 1:41 pm

I really find it cool and would be interested but I am afraid that 60\$ per copy is kind of high. You can probably find free silent miners around or get one coded for that price, or am I at wrong here?

Tee Plow - January 23, 2017, 2:07 pm

(Jan 23, 2017 02:36 PM)Mason416z Wrote: [\[CITE\]](#) Hey, This looks really interesting, I was wondering, what is the detection ratio of the miner.exe (I presume you use that engine for the CPU miner), since I know that by default it is a 12/35, I'm just wondering if you've done anything to decrease the detection ratio since its the actual miner..

OH..

Research the Codedom source code compiler =P

It allows you to compile a .txt file into a .exe, and you can store the .txt in the builder as a resource!
?
