Spoiler [\(Click to View\)](#)

Silent Exploit 2

Silent Exploit 4

Ole Confusion

JS Exploit

Macro Exploit

Silent Exploit 1 & Silent Exploit 3 are not fud anymore (13/35) Due to scans on distributing scanners.

Updates are not free.

Skype : chillbill9 | Jabber: truekapo@xmpp.jp

Skype Profile should look like this

There are some fake skype profiles ! So always verify - The original profile is like the above image and with name Kapo

Video of some exploits

[Video: https://www.youtube.com/watch?v=Eb_2nLqVJlg]

Silent Xploiter Kit is a tool containing

- 4 Office silent exploits (3 .doc exploits, 1 .pps exploit)
- Macro Exploit (.doc/.xls)
- OLE Confusion Exploit (.doc)
- JS Exploit (.js)
- Exe Extension Spoofer
- UAC Bypass
- USB Spreader
- Mail sender & spoofer with attachment

It costs only \$120 for lifetime license and unlimited builds

Private FUD bins aviable for Silent Exploit CVE-2017 (Works on all office versions) FOR ONLY \$80 !

If you were looking for a crypter or a method to spread, here is the best solution for you! Dont spend high amount of moneys with crypters that dont last long, with these exploits i guarantee it will have long-lasting fud and awsome spreading, just send a office document to your victim and thats all, he got hacked and he dont even know he got hacked !

The cve-2015-1650 works on 2007/2010/2013 and its silent, also the macro exploit works on all office versions.

Please state very clearly.

Is this the correct definition of your exploit or what precisely:

You embed an .exe into the .doc. When someone opens the .doc, with no other user intervention the .exe is executed. Works on 2013.

Correct me if anything is mistaken please.

waazmoney - January 9, 2017, 3:23 am

heey possible to get it for 50% off for a review ?

Backopy - February 1, 2017, 3:45 am

The CVEs you have are ancient - they (obviously) wont work on any recent versions of the software you're targeting. As for that javascript exploit you're preaching, no bueno. I might give you credit if you were say loading DLLs in JS for ur 1337 malware 'Xploiter" kit but all you're likely doing is acting as a glorified downloader (ie; you're literally dropping the payload into the host machine) likely using some skid widdie windows shell host stuff.

tl;dr - OP badged this fake "exploit kit" with four old exploits, I highly doubt the OP even managed to get this to function properly, the OP then used a sorta public method to download or locally load your payload using WSH via JS.

Kapo - February 1, 2017, 4:58 am

1. Just want to clarify, an exploit kit is generally a site or program or a combination of both with a large respiratory of exploits pre-loaded that are then tested against the target(s) usually in the masses with purchased traffic - the machines are then ofc, infected with the payload and likely to take part of some sort of herding botnet or similar - you have four old exploits that no longer work and are alleging that you have a javascript exploit kit when all your "javascript exploit" is doing is using WSH to download and execute malware, encoding that script so the retard who purchased it cant properly see what they purchased and you're changing the icon and spoofing the extension to confuse both the buyer and whatever idiot they decide to target.

2. I posted in the thread because I can. There is no rule that disallows a person to post in a thread. Especially not when you're borderline scamming people with fake claims. If I was a competitor seller or something like that then you could pull the "thread trashing" card but =(

3. I haven't posted any sort of comment that reflects my opinion about you or your product - only facts.

4. No.

Kapo - February 2, 2017, 5:19 am

4. No.?

Silent Xploiter Kit is the name of it, my tool is a builder for multiple exploits.

Four silent xploits recoded and obsfucated and are fud, i have exploits that work for any office versions , and this is a fact.

<http://cve.mitre.org/cgi-bin/cvename.cgi?name=CVE-2015-1650>

<http://cve.mitre.org/cgi-bin/cvename.cgi?name=CVE-2014-6343>

<http://cve.mitre.org/cgi-bin/cvename.cgi?name=CVE-2012-0158>

<http://cve.mitre.org/cgi-bin/cvename.cgi?name=CVE-2010-3333>

And im not changing any extesnion or fooling anybody , i dont care what the fuck you think.

My clients have tested and are happy with my product, you havent even seen the exploit and you are talking bullshits.

I dont have time to waste with you, as i told you please get out of my thread.

anilvac11 - February 2, 2017, 7:46 am

Hi!, Can you give more information about javascript exploit or it's cve? I am curious about how it works. Thanks.

4. No.

When U respect peoples, peoples will respect U. So U are not welcome here.

No Regards.

morrgan - February 3, 2017, 7:06 am

After compiled, attached on email and then sent to the target, the target then downloads it, when the target opens it, does it run silently or display the PROTECTED VIEW thing? This is one thing i don't like about these exploits.

Other ones i've used in the past, the target will have to Enable the protected view for it to work, as long as it's downloaded from the internet.

I hope this one is not like that too?

wizart injecto - February 3, 2017, 7:11 am

nice job men i will try to get it

Thanks for this. Seriously i don't know why people can't be honest.

Other doc exploits i've used in the past shows that "protected view" when uploaded and downloaded from the internet.

If the target downloads it and then opens it, he has to Enable Protected view for it to work, which is messed up

Kapo - February 13, 2017, 4:53 am

(Feb 12, 2017 03:04 PM)MadD0g Wrote: [\[CITE\]](#) Bull shit ? anyone Kapo's cve can't bypass protected view. You are idiot or false. All cve , virus scans and info about exploits are at the thread.

-CVE2010-3333 is not useless, it still works perfect today with word 2007 , i have recoded it

-CVE2015 - its stable and good

-CVE 2012 scan:

RCE - February 13, 2017, 4:59 am

if it can bypass protected view ill buy it asap :)

Kapo - February 13, 2017, 5:05 am

(Feb 13, 2017 05:59 AM)ShadoBIH Wrote: [\[CITE\]](#) if it can bypass protected view ill buy it asap :) Protected View its not easy to bypass because every office document that has been downloaded will show protect view.

But protected view is not showed on some other office versions that still have not been updated.

(Office 2007 on Windows 7 - Not showing me protected view)

So at all it depends on office versions and updates & patches.

BlackPanth3R - February 13, 2017, 7:43 am

So newer versions of Office WILL have protected view and won't work?

Kapo - February 13, 2017, 8:18 am

(Feb 13, 2017 08:43 AM)kennytriplex Wrote: [\[CITE\]](#) So newer versions of Office WILL have protected view and won't work? No exploits will work, just if the exploit was download from internet will show a protected view message.

RCE - February 13, 2017, 10:57 pm

simply , so if the user choose the option =>"keep block content" the exploits will not work anymore

Your product is simply not working You are answering my questions is not the issue but fixing you tools so it can work as advertised. Nothing is working 10% of what you advertised. when not even putty.exe will not run. I tested all the silent exploit in windows 7 with MS-Office 2010 un-patched and it did not work. I wonder how it will. I gave you time and honest review over the skype but its like you did not want to help matters. I did not ask for refund as I know it can be improved or fixed but you

chose to answer that you will show me over the team-view. If you check for how long I have been on this Forum you will know am not just a beginner. Also it always better to get your tools properly worked give out to people who will give critical review and suggestion of what you need to do. Am not angry with you as I know its not easy manipulating exploits to archive these things but its worth putting it together in proper shape before bringing it out for trade.

My take now is pause sales and fix and reactivate license of those who bought it already. they will give candid reviews and Vouches later and your sales will boom.

Kapo - March 13, 2017, 7:23 am

My take now is pause sales and fix and reactivate license of those who bought it already. they will give candid reviews and Vouches later and your sales will boom. Dude stop saying stupid things, i dont advertise anything fake ,

Everything you can read above is true and all are working 100%. If anyone dont belive even the reviews of other clients, contact me on skype and i will show live demo on teamviewer. Even that you have been a long time in this forum you havent learn anything. Dont talk when you dont understand anything. CVE-2015-1650 executes the exe VERY SILENTLY , the exe will be renamed to "svchost.exe" to trick the victim like a system process, and it will not show any popup. So dont make dumb questions , why its not a 'putty.exe'.

Making any other stupid reviews and complains will reslut in ban of your license.

eliskosta - March 13, 2017, 7:31 am

Im one of clients of Kapo, and the exploits are working fine for me. Trust me this tool is worth to have it.

Exploits works on almost all office versions, 2007/2010/2013/2016 ... and are sendable via gmail And js exploit is good also but not sendable via gmail.

?

j.shaww1 - March 13, 2017, 8:05 pm

when we convert .exe to .doc/xls.. how exactly it works, does it will ask them to enable macros, or shows anything that it they might get suspicious.

Kapo - March 14, 2017, 6:16 am

(Mar 13, 2017 08:05 PM)j.shaww1 Wrote: [\[CITE\]](#) when we convert .exe to .doc/xls.. how exactly it works, does it will ask them to enable macros, or shows anything that it they might get suspicious. No silent exploits are totally silent, without any popups or anything.

The office document will run like normal and victim will not get suspicious.

markcs64 - March 15, 2017, 1:32 am

(Mar 13, 2017 07:31 AM)eliskosta Wrote: [\[CITE\]](#) Im one of clients of Kapo, and the exploits are working fine for me. Trust me this tool is worth to have it.

Exploits works on almost all office versions, 2007/2010/2013/2016 ... and are sendable via gmail
And js exploit is good also but not sendable via gmail.

?

I do not seek your opinion dude. Just saying what I observed from what I bought.
If it worked well for you then say how it worked and what OS versions did it work on with what Office versions.

Just give the testing environments where it worked for you.

(Mar 13, 2017 07:23 AM)Kapo Wrote: [\[CITE\]](#) Dude stop saying stupid things, i dont advertise anything fake ,

Everything you can read above is true and all are working 100%. If anyone dont belive even the reviews of other clients, contact me on skype and i will show live demo on teamviewer. Even that you have been a long time in this forum you havent learn anything.Dont talk when you dont understand anything.CVE-2015-1650 executes the exe VERY SILENTLY , the exe will be renamed to "svchost.exe" to trick the victim like a system process, and it will not show any popup. So dont make dumb questions , why its not a 'putty.exe'.

Making any other stupid reviews and complains will reslut in ban of your license. I hope your threat of banning me is the last joke you may make this year. If you want to show how it works then come on TV and do so. You said you will let me know when you are ready but till date you have not done so.

All I have said here is what will remove as soon you answered me.

Scan result of Silent exploit 2: <https://viruscheckmate.com/id/Fkolv8WKThRK> 24/40

blackdark22 - March 20, 2017, 12:17 pm

Hello, are you saying that there is no need of crypting the server as the exploit does the encrypting??

QU?CKSILVER - March 20, 2017, 1:49 pm

(Mar 20, 2017 12:17 PM)blackdark22 Wrote: [\[CITE\]](#) Hello, are you saying that there is no need of crypting the server as the exploit does the encrypting??

No, it does not encrypt your file. The exploit itself is probably encrypted.

BlackHats2015 - March 20, 2017, 6:22 pm

I would be interested to hear from anyone who has brought this product. Like many I have brought programs from HF.

Some are great and working well. Others work for a few weeks before stopping and low and behold the seller does a runner.

So I ask is this program silent and does it get past AV...

morrgan - March 21, 2017, 2:50 am

Dude try to Add a template to your silent exploit asking the target to "Enable Editing"... Because all office documents when downloaded from the internet shows the protected view message.

With protected view message, server wont execute unless the target clicks on "Enable Editing"

Once you add a template asking targets to click on "Enable Editing from the yellow bar above" then i will buy this immediately.

Transporter007 - March 21, 2017, 8:51 am

PMed you about this. Waiting for the reply!

Kapo - March 21, 2017, 9:54 am

(Mar 20, 2017 06:22 PM)BlackHats2015 Wrote: [\[CITE\]](#) I would be interested to hear from anyone who has brought this product. Like many I have brought programs from HF.

(Mar 20, 2017 12:17 PM)blackdark22 Wrote: [\[CITE\]](#) Hello, are you saying that there is no need of crypting the server as the exploit does the encrypting??No need of encrypting exploits are fud

QU?CKSILVER - March 22, 2017, 5:29 am

(Mar 22, 2017 05:24 AM)eliskosta Wrote: [\[CITE\]](#) No need of encrypting exploits are fud

The exploit may be undetected, but the file that the exploit will run SHOULD be undetected as well, or else it will be caught by the antivirus during runtime.

morrigan - March 22, 2017, 8:07 am

(Mar 21, 2017 09:54 AM)Kapo Wrote: [\[CITE\]](#) I will support for a long time this product, and about the program :

Silent Exploit 3 or CVE-2015-1650 & CVE-2015-1770 bypass protected view.

Please let this be true as you just stated.

I would not want to purchase and then the protected view thing would be a problem.

I just hope you are being honest with what you just stated.

If this is not the case, please I suggest you add a template to it, asking the target to "Enable Editing in the yellow bar above"

Kapo - March 22, 2017, 11:35 am

(Mar 22, 2017 05:29 AM)QU?CKSILVER Wrote: [\[CITE\]](#) The exploit may be undetected, but the file that the exploit will run SHOULD be undetected as well, or else it will be caught by the antivirus during runtime. Yes exactly ?

Exploits are undetected but also if your exe is fud it will be executed better on runtime. And you will get better results.

heisangel - March 23, 2017, 6:31 am

Hi, i have a question, the server.exe have to be crypted before transforming in .doc ? or the builder do crypt & transformation ? thank's !

QU?CKSILVER - March 23, 2017, 6:45 am

(Mar 23, 2017 06:31 AM)heisangel Wrote: [\[CITE\]](#) Hi, i have a question, the server.exe have to be crypted before transforming in .doc ? or the builder do crypt & transformation ? thank's !

It does not transform the executable. It is an exploited document with your executable embedded to it. The document will run your executable. If your executable is not undetected/crypted, it will fail to bypass antiviruses.

eliskosta - March 30, 2017, 1:06 pm

This is the best choice probably.

.Net_Swarm - April 1, 2017, 9:09 am

I am waiting for PM reply Please check and answer

And this concerns this thread how?

maxlifted - May 24, 2017, 3:53 am

is it still fud? wil the doc work for 2007 and 2010?

BRAMBLESVIEW - May 26, 2017, 12:08 am

the silent xploiter 1 \$ 3 is not fud
it is rather seen by too many antivirus
can you kindly look into this????

sourdiesel87 - May 26, 2017, 6:25 am

When will this be FUD again? Seems to have some recent negative feed back of no updates/delivery for weeks so I'm a bit skeptical at this time. Please update.

maxlifted - May 31, 2017, 1:10 am

What is the current detection rate pls?

theroc - June 8, 2017, 10:38 am

OLE can be customized ? OLE is FUD ? Bin OLE it's possible ?

Lextian - June 8, 2017, 12:17 pm

What is the current detection rate for this am very interested in buying, thanks.

avalanche - June 11, 2017, 11:05 pm

how good is this at the moment cos some one needs it

Kapo - June 16, 2017, 7:29 am

Current detections:

Silent Exploit 1 - not fud atm
Silent Exploit 2 - 5/35
Silent Exploit 3- not fud atm
Silent Exploit 4 - 3/35
OLE Confusion - 2/35
JS Exploit - 1/35
Macro - 0/35

ezefab1 - June 19, 2017, 8:56 pm

Please the exploit i bought from is asking for activation code and life time licence. please what is the problem, i have written you on skype but you are not repling

huongviet - June 21, 2017, 12:33 pm

It has become an abandoned project i can tell you. Worse decision I ever took here, purchasing the lifetime. Never used it for 1 day despite so many complaints from me and promises from the coder. If you are among the lucky who has not purchased, keep off, else you gonna regret it like me

graceland - June 27, 2017, 1:09 am

(Jan 9, 2017 05:55 AM)Kapo Wrote: [\[CITE\]](#) live:chillbill9

is it still fud ? i am looking for 1

borah22 - June 28, 2017, 7:31 pm

i really want one too but i think the coder is not responding at the moment

NERO - July 5, 2017, 7:28 am

Yo kapo it's asking me for an activation code? I tried the one i got when i bought it but its not working, Ill pm you the details!

okotoko - July 10, 2017, 7:06 am

kapo, i need to deal with you direct from Skype, contact request was already sent but still not accept,
am reay do puchase your exploit builder.

okotoko - July 11, 2017, 7:34 am

dude, any one can help me, i bought kapo silent exploit, but i am using nanocore stub , but many hosting downlod links can not accept the file, ... is any one can help me to tell me the best one to host it?????????

NERO - July 12, 2017, 5:35 am

Buy anonymous domain and hosting. Host from there?

okotoko - July 12, 2017, 10:52 am

can any one tell me any good site that host direct download link

dude ,, thanks for your info...does dropbox work ??

huongviet - July 12, 2017, 3:40 pm

(Jul 5, 2017 07:28 AM)D?GM? Wrote: [\[CITE\]](#) Yo kapo it's asking me for an activation code? I tried the one i got when i bought it but its not working, Ill pm you the details!

Same problem here!!

Has your issue been resolved??????

Lextian - July 14, 2017, 8:59 pm

Is this still up for sell Kapo or is the project gone?

okotoko - July 15, 2017, 4:56 am

kapo, xploits i bought is not FUD its completely dictating by all AV, is it possible to crypt my exe file b4 build????

graceland - July 26, 2017, 9:33 pm

(Jan 8, 2017 05:38 AM)Kapo Wrote: [\[CITE\]](#) I sent you a pm.

I have tried purchasing with my paypal but keep have error, please help

graceland - July 27, 2017, 9:58 pm

(Jan 8, 2017 12:56 PM)Kapo Wrote: [\[CITE\]](#) Check the thread, everything is included there.

The cve-2015-1650 works on 2007/2010/2013 and its silent, also the macro exploit works on all office versions.

Paypal link not working Kapo, please fix it

ken0man - July 29, 2017, 2:58 pm

you have to crypt before build.

if you have bought this stuff kindly post reviews for others to know whether to buy or not.

blackdark22 - July 31, 2017, 7:04 am

Bought this three months ago..... IT DONT WORK GUYS. Did everything with Kapo on skype, wont work then he stopped answering on skype. DONT WASTE YOUR MONEY ON THIS SHITTTTTTTTTT. A big waste of my \$120.

ryandebiousjogious - August 2, 2017, 6:47 am

Hello,

how much does your product cost ?

i am interested.

harrydpolumbo1 - August 3, 2017, 4:34 pm

can I get only macro with tricky message pop to run ?

peterhills13 - August 8, 2017, 1:31 am

i have tried to add you on skype. I need to purchase your exploit if it works with java files

donsicilly - August 17, 2017, 4:55 pm

i added you on skype but your not replying my message..i want to purchase your exploit

mike331 - August 20, 2017, 4:05 pm

hope this still works good

or possibly leave a skype or contact details

is this thread still open

donsicilly - August 22, 2017, 6:16 am

Kapo is NOT responding both here or skype

zeros4code - August 25, 2017, 2:43 am

Come back Kapo.. we need your services or is this gone???

lahshame - September 19, 2017, 12:22 am

Truly, i wanted to buy this exploit but negative feedback on the site drives me back. Can anyone with good reputation on HF vouch for this dude?

dephantomz - September 21, 2017, 11:08 am

can i have the vouch version skype id:benny_john60

reddevilforeverz - September 21, 2017, 2:12 pm

does private version work with latest updated office?

aalmangour - September 22, 2017, 3:02 am

Does this still work?

I'm interested in buying some 2017 silent exploit.

kenedi - September 24, 2017, 1:06 am

Dear friend

Do you have an list commercial exploit kits for Windows and Android (especially Android) 's?

Or the site is the latest commercial exploit kits is registered in it (0 day)?

In general, a source of commercial exploit kits wanna Windows and Android

Please give me a private message

Thankful

morrgan - October 4, 2017, 5:01 am

I don't think this is working again. Don't buy.

I have been writing this dude on Skype for more than 3 months now no response from him.

Don't waste your money

HangMansheart - October 5, 2017, 1:36 pm

Domain expired ;(

Riperoni

trusplus - October 8, 2017, 1:21 am

Has anyone tried this marchant doc exploit and see if its works? or anyone has doc silent exploit for sales.

pm me urgent plz.

jesusuku - October 8, 2017, 12:27 pm

I like your makes bro, bravo

ken0man - October 17, 2017, 9:15 pm

silent exploit is the hot cake in market now, lol

tonyjuniior - October 18, 2017, 3:43 pm

hello ill like to get the it how can i get it pls?

Mr Provide - October 19, 2017, 2:37 am

Kapo Has vanished,Next exploit seller please...

OccidoLumen - October 20, 2017, 4:58 am

Kapo... Are you there... This looks promising... .

osbriggs - November 6, 2017, 6:15 am

(Oct 20, 2017 04:58 AM)OccidoLumen Wrote: [\[CITE\]](#) Kapo... Are you there... This looks promising...

@masterx..looks promising till u loose ur funds

(Oct 18, 2017 03:43 PM)tonyjuniior Wrote: [\[CITE\]](#) hello ill like to get the it how can i get it pls?

@muller forget it...he's disappeared like others

alexvenutelli7 - November 9, 2017, 12:31 am

Hello is this still for sale ? I am interested

infomationss1 - January 18, 2018, 1:10 am

Hello, how much does this cost? I am really in need of Silent Exploits on urgent bases.

anyiaka101 - April 7, 2018, 4:09 am

Does anyone knows if this Exploit is still working and still FUD, since all comment I have been reading here are of 2017

Appliance Warehouse - April 7, 2018, 9:15 pm

Hey buddy your link is down.

osbriggs - April 12, 2018, 11:00 pm

anyiaka waste not ur money..project don maroon

Duncan Hack - October 16, 2018, 5:22 am

Still selling this product?

Demya - October 20, 2018, 1:56 pm

Tried to visit your website. Unfortunately, its down :(

Henry Hatton - October 22, 2018, 4:02 pm

(Oct 20, 2018 01:56 PM)Demya Wrote: [\[CITE\]](#) Tried to visit your website. Unfortunately, its down :(

He is selling privately now

lordiyke1 - November 10, 2018, 2:28 am

If this project is still on pls share ur idea for us to learn from it, otherwise let us know if its dead n gone...

Spoiler [\(Click to View\)](#)

Silent Exploit 2

Silent Exploit 4

Ole Confusion

JS Exploit

Macro Exploit

Silent Exploit 1 & Silent Exploit 3 are not fud anymore (13/35) Due to scans on distributing scanners.

Updates are not free.

Skype : chillbill9 | Jabber: truekapo@xmpp.jp
Skype Profile should look like this

There are some fake skype profiles ! So always verify - The original profile is like the above image and with name Kapo

Video of some exploits

[Video: https://www.youtube.com/watch?v=Eb_2nLqVJlg]

Silent Xploiter Kit is a tool containing

- 4 Office silent exploits (3 .doc exploits, 1 .pps exploit)

- Macro Exploit (.doc/.xls)

- OLE Confusion Exploit (.doc)

- JS Exploit (.js)

- Exe Extension Spoofer

- UAC Bypass

- USB Spreader

- Mail sender & spoofer with attachment

It costs only \$120 for lifetime license and unlimited builds

Private FUD bins aviable for Silent Exploit CVE-2017 (Works on all office versions) FOR ONLY \$80 !

If you were looking for a crypter or a method to spread, here is the best solution for you! Dont spend high amount of moneys with crypters that dont last long, with these exploits i guarantee it will have long-lasting fud and awesome spreading, just send a office document to your victim and thats all, he got hacked and he dont even know he got hacked !
