Thread: [\[1 CSGO KEY\] Steady CSGO Skins income!](#)

klonerk - January 8, 2017, 8:24 am

So This is basically a method that gets you a steady CSGO Skin income. With this method you won't be able to get 347 Dragon Loos in 2 Minutes by doing surveys. What you can expect is a daily income of CSGO skins between 5-10\$, and if you are good at it you can go up to 50\$/day.

Price: 1 CSGO Key (or any skin with same value)

The method does not include:

- Surveys
- CPA or any affiliate shit
- blackhat activity
- scamming

The method is set up easily and depending on the time you spend on improving it it gets you more skins

The Price for this method is 1 CSGO Key (or something with nearly the same value), so it almost costs nothing.

TOS:

- no refunds

I am giving away 2 Vouch Copies to L33t/Ub3r members, comment below to request one.

PM me if you are interested in buying. ?

I was given a vouch copy and this method works and it's one of those ones that are in your face but is kind on unethical lol.

You sure this isn't some sort of eBook on how to trade CSGO skins? If so: that market is inflated with people who always want more than their item is valued at.

This Method does not involve trading up items, in fact the only trade is when you receive your skins, you won't send any skins with this method

Thanks for the vouch copy.

There is no need to buy anything, no need to invest money.
All you need is time (not so much of that).
The method is very short but well-written and easy to understand.

It's something everyone can do with no trouble at all!
It's however not something I'd buy.

This is my honest review. Thanks!
