Thread: [Doing a social experiment on \[BRAND NAME REMOVED\]](#)

kwebber321 - January 8, 2017, 12:34 pm

Mainly the idea of the experiment is to see what race of girls gets the most hits. For example, whites, blacks, muslim, hispanic, asian, native american, ect. Does anyone know of any good packs with mixed races? No nudes just a good candid self photo for the profile picture. Who do you think will get the most hits?

? Quick ? - January 8, 2017, 12:35 pm

If you still need this, hit me up.

white dude - January 8, 2017, 12:35 pm

I'm sure you can make it fairly obvious.

Hot ones will get the most views, then we'll start with ethnicity, fetishes (emo, piercings, etc) stuff like that.

You should promote your kik through that tho, lol.

You cannot decide based solely on race. It depends on looks, but I'm going with white girls.

well of course looks but still you need to think about race because there would be people like " Cabo" here above us that probably wont date a muslim girl because he probably thinks she is a terrorist.
