Thread: [Cibor \(uid=1866420\) Breaking HF polices, False advertising & selling Blackhat Method.](#)

peaceful warrior - January 8, 2017, 1:46 pm

Update 1:

<https://hackforums.net/showthread.php?tid=5518069&pid=53747252#pid53747252>

Hello,

I was recently introduced to Hackforums by my IRL friend [Mr. X](#).

As I was looking for a whitehat method for online earning Mr. X suggested me to give this method a try.

Here is the method I am talking about:

<https://hackforums.net/showthread.php?tid=5433308>

Here is the thread pic if incase it gets junked/deleted:

Spoiler [\(Click to View\)](#)

As you can see the thread clearly showed that the method was whitehat so I went ahead and paid the \$500 for it.

Here is the payment link:

<https://blockchain.info/tx/cdaf9fbc4b1ea7907bbbee6ff50d3639bee7d9fee56d2db4450fa0df4b69288a5>

Here is the proof its Cibor BTC address:

Spoiler [\(Click to View\)](#)

Here is our skype chat:

Spoiler [\(Click to View\)](#)

Spoiler [\(Click to View\)](#)

Spoiler [\(Click to View\)](#)

Spoiler [\(Click to View\)](#)

The method is blackhat (involves creating fake identity atc) and the method falls under the category which cant be discussed here:

Virtual Credit Cards (VCC), Prepaid Credit/Debit Cards and Virtual Bank Accounts (VBA)We understand that there might be a valid purpose and use for these discussions, but we've decided to remove them from HF in an effort to stay on a more legitimate topic level.

The method totally revolves around this and as per rules it is not allowed to discuss here while Cibor have made 3 sales of this method including mine.

Additionally Cibor asks to use HF indirectly to get sales of this while knowing that is not allowed.

He is false advertising too while in the therad he said it was whitehat but it turned to be blackhat so his thread was totally misleading.

I cant post proof unless showing what cibor gave me in .txt but if staff needs the proof, I will be

totally happy to share the .txt with them so they can take the appropriate actions.

Please let me know if anything additional proof is needed from my side like skype chat etc but that wont be possible unless I show the method itself.

I would be soon buying sticky for this thread if thats allowed so I can make the community aware of what Cibor is doing so members like me dont trust his group owner status and the number of awards he has here.

Regards.

This has to be one of the best DDs I've seen in a minute lml.

I'll have to watch how this goes

White. - January 8, 2017, 2:04 pm

This seems pretty legit.

Best of luck my friend.

Papa Cuda - January 8, 2017, 2:33 pm

I'm sure there is a reason and I'm sure you'll get what you're looking for. This is not like Cibor. I've informed him on Skype. OP can you show me what his actual Skype name is? Instead of what it displays. Because I remember there being 2 or 3 Cibors on Skype.

Baseplate - January 8, 2017, 2:38 pm

You didn't include the part where he mentioned his Skype ID in the PMs (if he even did that)..?

I'd too like to see that part.

But also note that (both) Cibor(s) mentioned the same BTC address in Skype and PM.

Cant wait for Ciber to reply on this one not gonna lie

Malicious Intent - January 8, 2017, 2:46 pm

I'm interested in this method lol hit me up .. it doesnt sound that bad tbh.. it simply means the system is flawed.

2073436 - January 8, 2017, 2:47 pm

Very sad. I'm sure he was looking to make a quick buck by lying.

If he clearly stated it was "whitehat" in capital letters and you have received a BH method, you have been scammed.

I also find it weird that that uber guy "purchased" his first copy and OP sold it to you as well for \$500 which indicates he really wants the money.

Well no one else complained. Maybe op misunderstood instructions and ended up with a dick in a toaster. We can't really tell unless we see the method.

The difference between white hat and black hat is pretty, well, black and white. It's doubtful he misunderstood.

He stated that he would show the method to a staff member. Which is enough for me.

No need to share this method in public.

I'm confused why people are jumping the gun.

OP has showed a small coversation with a Btc address.

You're all assuming and taking OP's word that the method is illegal. What if OP is lying and the method is actually legit?

Someone needs to verify this before anyone should be assuming shit.

Cibor - January 8, 2017, 8:34 pm

1. The method is absolutely legal.

Quote:The method is blackhat (involves creating fake identity atc)

That is a lie.

It's based on the fact that he didn't see his country on the website where he was instructed to register.

How is that creating fake identity?

Later on, I have contacted him again, with a replacement website, which has his country listed.

However he didn't even answer to that.

Quote:Additionally Cibor asks to use HF indirectly to get sales of this while knowing that is not allowed.

This, is a lie too. I never told him to break any HF rule. Never even told him to make a post or PM anyone. Clearly a lie.

Quote:He is false advertising too while in the thread he said it was whitehat but it turned to be blackhat so his thread was totally misleading.

Another lie.

He's saying that method is blackhat because there wasn't his country listed on a website, so by using a close one, he would create a fake identity, which is ridiculous and untrue. Especially, when I have sent him a different website later, which allows his country and which would lead him to even bigger profit.

I'm not going to refund him if he didn't even try the method (or he did but isn't telling me). Every time I tried to help him and get him started he refuses.

Example:

I've asked him several times about the reason why he does not want to just follow the method. He never answers that question.

My conclusion is, that he wanted a method but he didn't want to pay for it. So he's now trying to exploit me to get himself the method for free. That is not going to happen.

peaceful warrior you are an obsolete tool. You didn't have your country listed and he told you to create a fake identity and maybe use a VPN to a country that's on the website also based on the screenshots he also gave you another website which had your country listed but no instead you proceed with a DD because you want things for free. I'm fully supporting Cibor on this one since things like this happened to me in the past not HF.
