Is it just me or do these screenshots not make sense...? Did you scam that guy claiming or did he scam you? Im very confused lol and everyone else is just ignoring it?

****EDIT**** Ended up doing a deal with OP if you read down in the thread and it went smooth!

This and it isn't the first time a code he was "Buying" turned out "invalid". Just saying, but anyways besides that 70% for PP is kinda bad IMO I'd suggest anyone to sell it for 70% BTC since you can get BTC to PP for 10% more.

Anyways gl buying OP
