Thread: [Animated Character Portrait](#)

#Doge - January 9, 2017, 12:50 pm

Some religious holiday got my internet cutoff for the whole day and I just had to do something. Been wanting to start on this style for a long while now and finally did it. I didn't manage to go full on with the details(clouds, more movements, etc.) simply because I wanted to start on another one again.

Anyways, let me know what you think.

Kinda big file size gif. (11mb)

Resized to half size. Gif is 24fps but another render is 30fps and it looks kinda better but the file size is enormous.

The idea is like a portrait for a certain character. Like the ones in League of Legends. I'm planning on making longer ones with more content.

Cnc. Thanks!

Wow....Just wow.

This is fantastic work mate. You have great talent.

yolosweg123 - January 9, 2017, 2:20 pm

That actually looks really nice, good job.

ulli2k - January 9, 2017, 4:25 pm

This is amazing, I've always loved your work OP

Looks great man, I love how the wireframe of the render appears.

M?xim - January 9, 2017, 5:54 pm

Ow that particle effect. For this showcase, I would have added a border. Nevertheless it is really cool, well done.

what have you done with saitama sensie ?

haha anyway good job pre !!!

illuminati? - January 10, 2017, 5:33 am

God damn Doge, you're an animal.

8/10, wasn't entirely a fan of the character.

GlitchedMe - January 10, 2017, 11:04 am

really , its so cool ;) I love this, can I use this for my things??

One of the dopest animations I've ever seen actually.
10/10, don't quit :D

kushkaripordhi - January 11, 2017, 5:15 pm

10/10 for me, just wow.....

Nyxuo - January 11, 2017, 9:17 pm

Amazing job. I can see where this is going and you're a fucking genius. I really like the tasks you tackle. Keep pushing yourself man you've got talent. I really like the blue flares and glow. The animation on the render it's looks a little weird to me as it doesn't feel as smooth and fluid as the other animations. I can only imagine how amazing this would look with some more atmosphere. Please post the new piece. I really want to see your progression with these.

Stoels - January 11, 2017, 9:20 pm

This looks awesome! Great to see you creating your own 3D models.

Invictum - January 11, 2017, 9:21 pm

This looks really good, be proud of your talent, keep doing great. ?

SocialAgency - January 14, 2017, 1:28 pm

This is some nice work.

9/10

SeForm - January 14, 2017, 1:35 pm

I really like it, but the right arm isn't the best, it looks like broken.

7/10 really good work OP, really love it.
