Here is my honest take on the ebook:

Originality: The method is good but not original (author also mentions he learnt from someone). I have seen people use it. Haven't tried myself because of time issues but the method itself is not going to get saturated anytime soon.

Language: The language is easy to comprehend and no one should have any problems in understanding it.

Effectiveness: In my experience, if you try this method there can be two outcomes:

1. You don't get any/much profit and get frustrated: This would be not because of the method itself but lack of hardwork and dedication. You have to patient and if you are good at marketing then this would definitely help a lot.

2. You earn decent/huge steady income flow: This would be the ideal case but in order to reach there, you need to have one or more of the following qualities -

hardworking/smart/know-how-to-sell/good-at-SEO/online-marketing/lucky

Note that I do not mean you need to have all of them. Even 1 of the above is able to make profit for

you.

Overall: I'd give 4/5 and would recommend this to others. Vouch from me

(Jan 10, 2017 09:58 PM)DVA? Wrote: [\[CITE\]](#) Hello everyone, I ended up receiving a vouch copy of the method, here is my honest review. I was given a courtesy copy because I happened to offer my signature to the public and got a lot of knowledge in return!

Grammar: 9/10

I think I saw one spelling mistake, other than that, looks good to me!

Readability: 10/10

Honestly, nice choice of font. Makes for easy reading. You also spaced out the seperate paragraphs adequately which made for smooth, non-jumbled reading.

Method: 10/10

This method will 100% work, while it does require a bit of investment, anything good in life does, nothing comes free. If you want big profits, you need to put at least a little bit of investment into it. I will personally be using this method and after some time I will return and post my profits.

Would I recommend this to other people on HackForums?: Yes.

This method is easy for a newbie to pick up. I believe that with the support of Tom & FRI?DBAO™, you will be able to pick up this method with ease and begin your journey of making a living online.

Thanks again for this amazing e-book!

Kind regards,

(Jan 13, 2017 11:43 PM)Imperishable Wrote: [\[CITE\]](#) Here is my honest take on the ebook:

Originality: The method is good but not original (author also mentions he learnt from someone). I have seen people use it. Haven't tried myself because of time issues but the method itself is not going to get saturated anytime soon.

Language: The language is easy to comprehend and no one should have any problems in understanding it.

Effectiveness: In my experience, if you try this method there can be two outcomes:

1. You don't get any/much profit and get frustrated: This would be not because of the method itself but lack of hardwork and dedication. You have to patient and if you are good at marketing then this would definitely help a lot.

2. You earn decent/huge steady income flow: This would be the ideal case but in order to reach there, you need to have one or more of the following qualities -

hardworking/smart/know-how-to-sell/good-at-SEO/online-marketing/lucky

Note that I do not mean you need to have all of them. Even 1 of the above is able to make profit for you.

Overall: I'd give 4/5 and would recommend this to others. Vouch from me
