Thread: [\[L33t/Ub3r\] LoL Mystery Skins \[NA\]](#)

Riley - January 10, 2017, 1:15 pm

Hey there,

There's no fancy thread design or layout, simply just hosting this with what I have left and wanting to give back to the community. I'll be choosing 5 to 10 people within the next couple of days to receive their Mystery Skins and the procedure is as follows:

Once you've been selected for a Mystery Skin, you will receive a PM asking for your Summoner Name.

I will add you and gift you the following day once it is available and notify you via PM.

How to enter?

You enter simply by posting below and your post number will be your entry number which will be randomly selected via RNG (random number generator) and the results will be posted to the thread once it's over to verify the integrity of the giveaway.

What will winners be receiving?

Winners will be receiving up to two Mystery Skins (I will randomly select a couple of numbers and those specific numbers, if chosen, will be granted an additional Mystery Skin box)

Weekly Winners

- 1.
- 2.
- 3.
- 4.
- 5.

Post away!

Sorry! I use to do EUW, however there were some unfortunate events that lead to only me being able to do NA.
