Thread: [\[C++\]Selling spot on the botnet \[Ring3 Rootkit, Botkiller, Stability, HTTP\]](#)

Humming Bird - January 10, 2017, 2:13 pm

I'm going to keep this short and simple.

I'm selling ONLY 1 spot on my panel for \$60 2 weeks.

For further details please add my on my jabber : thisguyhasbones@exploit.im

Some features of the BOT

- 1) Bot killer - Kills almost all the bots on the market and is also one of the most persistent bot that seriously cannot be removed.
- 2) Kills all the AV's on the market - Yes, it does that with a breeze and reports it on the panel.
- 3) Formgrabber - Captures everything (IE, Chrome, Firefox, Safari, etc)
- 4) Bot Statistics
- 5) Stability, Ring 3 Rootkit - SystemWide, Proper HTTP Panel
- 6) Encrypted Communication
- 7) Coded in C++
- 8) Proactive Defense

If you don't remember me, I used to run a successful automated botshop on HF -

All vouches, no negative reviews :)

For further details please contact me on jabber
thank you

why would someone pay 60\$ for 1 week and he can get the panel+builder for 75\$ lifetime !!

i think you should low the price and give out vouch copy

Kicking - January 10, 2017, 2:55 pm

Well, \$60 for 1 week is a bit extreme. But either way, glws.

If you're offering a vouch copy. I will be glad to make a detailed review!

I know where you are coming from, buying HF coded malware for \$75, what I am offering is not sold on here but nonetheless it is not your mistake since I did not specify it in the OP, I want it to be private, if you want we can talk over jabber.

Vouch Copy ? I will not do that for obvious reasons because once I give it out you'd have the address of the server. Please read my threads, I am known for offering top notch services in this area. I'd think about lowering the price or extending the duration of the service for the same price.

Still selling this. hmu on jabber or pm me on hf if you are interested

caiveman - January 17, 2017, 6:14 am

hmm.. that description makes it seem like a bot in development.... perhaps a 'beta' bot.
