Synopsis

TV version of Little Witch Academia.

What's so great about this show?

Little Witch Academia (TV) is a full fledged series, following the wide success of the Anime Mirai (Google it) funded Little Witch Academia movie, created by studio Trigger. The series has a real "Harry Potter"-esque feel, but the British kids are replaced with cute anime girls.

The movies were handled very well, with both gorgeous animation and a good, ORIGINAL story, which gives some confidence that the TV series will also be great.

Episode 1 Impressions(Contains spoilers)

Spoiler [\(Click to View\)](#)

I will update this upon watching episode 1.

Should You Watch?

Unless episode 1 is appalling and makes me change my mind, I'd say yes.

Where can I watch this?

Believe it or not, this series is Netflix only! You'll have to have a Netflix subscription to watch this legally.

Please use spoiler tags when needed, whether they be manga or anime spoilers.

The first episode was a bit more confusing in storyline progression than the OVA but i guess those will be shown later on.

Still pretty fun, Can't wait for episode 2.

The first episode was pretty fucking great. I'm really glad it's getting a full 25 episodes.

What was so confusing? It's the first day of school and Akko gets the gang in trouble. It felt pretty straight forward.

Stopped watching at episode 9 was waiting for more to come out, love the art style.

Has any story developed or are they still doing the childish plot of, problem, down hill, solution, happy ending.
