"This is nokia2mon2's special group that he controls."

The group was formed as a result of multiple significant donations made by nokia2mon2. He has donated over \$10,000 in the name of the group, and so a drop shadow to the usernames of members of the group was added - it is the only usergroup to feature bespoke username styling. Before the introduction of the official [Deal Dispute Database](#), the group was in charge of the Red Lions Scammer Database: a list of user-submitted scammers.

The group was formed in January of 2011 under the sole leadership of nokia2mon2. Over 100 member upgrades have been made in the name of the group to date. Its current leader [!! Alone Vampire *!!](#), has been appointed to restart the group.

Without balance there is chaos.
Equilibrium is a group dedicated to giving support to all users throughout the entire forum on any topic. There have been many groups who have claimed to be helping the forum without showing anything to back it up. The concept of this group was inspired by a quote from Tranquility, the leader of a group formerly known as The Creed. Our members will be dedicated to helping out others in threads which are posing a question or calling us to action. Tutorial threads may be useful, but we feel that single posts who help one or more users inside their own threads are more valuable.

I'll be updating the thread and changing Nightmare to The Marketers sometime tomorrow, as I'm not sure of all of the graphics for the group banner wise.

Hopefully whenever I've finalized all the information I want to include that one day it'll be stuck so it doesn't die out.

I plan to add a good bit more too it here in the near future. Ideally I'd like to have every group ever formatted like the current groups are but it'd take around 5-10 pages I'm assuming to do it.

If Views as a alone person can make this thread, then surely a whole group can do something even better.

Not as easy there are a lot more things to deal with on the wiki and not to mention we have to get all changes approved so it's hard to just go in and work on a bunch stuff.
