Thread: [GT Exploit: Tags Getting Banned](#)

SMFollowers - January 12, 2017, 12:55 pm

So I have been doing a little bit of research, and my current gamertag is taken, but I also have the same GT (different capitalization). Eventually, what I do believe will happen is these tags will be erased, or something to that effect. I am just curious if anyone has heard anything about this, or thought about this.

microsoft announced GT with more than 5 years of inactivity will be deleted!

Can't vouch. I don't have any tags.

Unfortunate that so many people lost tags due to this though.
