Thread: [LastSession is lying, and here's why](#)

Xeenon - January 15, 2017, 2:39 pm

So I saw the thread between LastSession and princeofpeace and I was laughing my ass off about the fact that princeofpeace felt for said e-whore. LastSession apparently pretended to be a female, and with this decided to take advantage of princeofpeace, making him send LastSession a total of \$1.2K.

Now, the sad part is, this is all just a publicity stunt and the reality is that LastSession and princeofpeace are actually good and close friends. How do I know said? Well, let's take a look at some proof.

A thread was made the 26th of August 2016 wherein princeofpeace is explaining how LastSession is such a funny GUY and how happy he is to have met someone like him. He brags about LastSession is his HOMIE; how HE trolls a lot. Yeah, no shit.

hackforums.net/showthread.php?tid=5387152

"Last Session is a Legend MATE!!"

"So I got to know last session here on this forum and HE is great! Very funny guy. HE trolls a lot so sorry to anyone who doesnt like him but you have to like him just be nice to him and everything is all good.

I'm bragging that this guy is my homie, A mate from another mother, You know what I mean :D?"

HOLD HOLD HOLD HOLD UP.

(Jan 15, 2017 03:53 PM)princeofpeace Wrote: [CITE](#) if that is real you know I can just charge back payments right lol? But seriously your a chick, so w/e.

Okay, so princeofpeace just warned LastSession that he could chargeback said payments of \$1.2K? If this is the case, then clearly the payments were made over PayPal - then why is LastSession refusing to find the BLOCKCHAIN links?

- Clearly this means, that LastSession is trying to fake his story by saying he can't find the Blockchain links of the payments, sent by princeofpeace, meanwhile princeofpeace clearly states that the payments were made over PayPal.

Thank you both for ruining your own story; next time actually get together and properly discuss how your story should be played out.

I rest my case.

LastSession, this is a weak attempt at gaining publicity alongside attention - clearly you seek desperate attention and I suggest you to, how do I put this gently..; you are a humongous dickwad. At least get rid of obvious evidence before you try to pull of a publicity stunt.

Hello Buddy - January 15, 2017, 2:41 pm

Well... By the looks of things that just ruined their fun together.

?now - January 15, 2017, 2:42 pm

Nice job man you just ruined the joke

LastSession - January 15, 2017, 2:45 pm

Do you really want to know how I SEd him into thinking that I'm a girl?

I mean I don't really care what you think, I screenshared all my convos with some users, I don't need your confirmation.

Edit:

I reconsidered that. You can have proof if you like. Just let me know what your Skype is and I screenshare everything with you. If you don't want that, then stfu.

First off , i didn't know lastsession was a chick. You see the dates there buddy?

That was months ago, Then gary told me she is actually a chick and face-timed her.

So I found out, and talked to Lastsession about it. We started to flirt and Liked each other. so I ended up asking her out basically and we started to date.

I've seen the chat log between the 2. This conversation have been going on for more than 3 weeks.

I do believe that princeofpeace indeed got eWhored.

If you look at the reputation LastSession left to princeofpeace. It was left months ago saying that he was a big fanboy.

I don't find your proof valid.

lol you are just jealous.

Do you think when you join a forum that everyone here is a female?

I talked with this guy on HF because I found him funny, then me and Gary., a well known user who selfbanned himself, had the idea to troll him about on a discord. We didn't think he would really believe that I'm a girl. Gary had the idea to ewhore him, I tried it and at first it didn't work, he said he will have moeny in a "few months". Then, a month or so later, he PMed me again, saying that he is ready for a relationship blabla (I have PM proof). From there on everything got going.

Did I really explained all this to you know lol

PM a staff member, I did not edit that PM. As he left HF for a few months, he pissed me off on Skype, that's why I gave him the negative reputation. He recently asked me to change it to positive, but I just forgot about that and most of the time I didn't have any reputations left.
