Thread: [Think into Royalty \[Official Group\] #4](#)

Papa Cuda - January 16, 2017, 9:32 am

Now Royalty Free*

Good evening HackForums.

So I'm kind of tired of the way I've done this in the past and I'm working on a few new methods to make this more interesting for everyone. This Think into Royalty will be fairly easy but the next couple are going to be quite difficult. So let's get right into it, if you think you're up for it, here's your clues:

This took me 13 tries to get right so enjoy.

Pbatenghyngvbaf. Vs lbhir znqr vg guvf sne lbhir znqr vg guebhtu gur svefg ebhaq ohg vg vf abg bire. Urnq bire gb zl cebsvyr naq pyvpx ba gur jrofvgr gb svaq fgrc ahzore gjb

Rules of Think into Royalty

- 1) Do not PM me
 - 2) When you're done, post your answer, but also post how you got the answer so everyone knows. You can post your answer and then edit it to make sure you are not beat to the punch.
 - 3) DO NOT PM ME, I will disqualify you from the challenge.
- Good luck to all who try, I will be reviewing this as it progresses.

?

Just confirming that this is an official thread, good luck to participants :)

I am currently working on this. Will post back soon!

Ok So I got it!

The answer is "cookies and apple juice"

So now how did I get the answer?

Well I went to rot13.com & decoded the original text "Pbatenghyngvbaf. Vs lbhir znqr vg guvf sne lbhir znqr vg guebhtu gur svefg ebhaq ohg vg vf abg bire. Urnq bire gb zl cebsvyr naq pyvpx ba gur jrofvgr gb svaq fgrc ahzore gj"

Which linked me to sendspace, from there I downloaded a QR code, and went to zxing.org & decoded it, which finally linked me to Cibors profile with another sendspace, which got me another

QR code, which I decoded and got me to the answer, which was "Cookies and apple juice"!.

Found answer I did PM but just was checking if right sorry xD will edit with steps to get cookies and apple juice

The thirteen tries was referring to rot13 so I googled a decrypter (rot13dotcom)
Then it said goto his profile for the sendspace link.
Downloaded fail.jpg converted to png.
Read it with a QR reader.
Got Cibor's profile.
Went to sendspace link.
Converted to png.
Got a response "The answer is cookies and apple juice"

I'm guessing this is what you meant by this one being fairly easy? :D

Well I got disqualified just read the bottom of thread fml will be stalking for new one now :D

Awww was excited to see another one of these, but it was so easy it was solved before I got here. Looking forward to #5 tomorrow ?

Was the "This took me 13 tries to get right so enjoy." a clue towards the shift, or did this actually take you 13 tries lmao

It will certainly be possible. Cibor has been cross-checking every step so, if it's impossible I blame cibor lmao
