Thread: [\[OG KiK\] Secured 2 Years: Triangle](#)

The kik is:

Tri?ngle

I've owned this forever and have gotten asked to sell it so many times.

Taking offers, but I just got married and trying to pay off some of my newly acquired debts, lol.

Will also consider IG only trades.

If a lurker can't figure it out, I'd probably be better off not dealing with that user in the first place lol. So it's a kill two birds with one stone kind of thing.

And thank you for the first bid! I'll take note.

With the amount of experience I have dealing with some people over the internet, I can definitely assure you there are plenty of brain dead people somehow managing to use a computer.

100% guarantee, haha.

Should have sold this like a year ago, would have got way more than you'd get now. Eitherway best of luck with sales.

Yeah I there's just periods in my life where I completely leave technology behind. I should protect my investments more.
