Thread: [Iphone wont turn on!!](#)

SubjectTrek - January 17, 2017, 8:45 am

So it's my second night at college and I went out last night and just woke up and my phone won't turn on. It wont show the battery logo like it usually does when it's dead. I'm fucked and need help.

Quote:Keep holding both buttons down until you see the Apple logo appear on the screen. The logo should appear between ten and twenty seconds after you start holding the buttons. After the Apple logo appears, your iPhone or iPad will boot back up

If this doesn't work its probably broken.

Aveling - January 17, 2017, 10:04 am

It sounds like the battery has been completely drained, have it on a charger tonight and see if it boots up tomorrow.

Yeah gonna leave it in all night. Thanks. Had it charging for awhile so I don't think it'll do anything.

Where's the cheapest and most convenient place to get a new phone?

What kind of phone do you want to get ? And what is your country?

Probably craigslist, but there's a chance you land a stolen iPhone.

Korvo - January 17, 2017, 2:43 pm

Hey man, Repair tech here.

Obviously I'm sure you tried plugging it up already.

While it's plugged in hold them Home & power button down for 15-30 seconds and let me know if that does anything. Well go from there.
