Hello everyone!

I am member of this forum since 2013 and enjoyed the hours i spend here. i have learned a lot from here and i am very great full for that, knowledge is the key to succes after all. So thank you all! That said back to bussiness :)

I like testing & reviewing products a lot and it's a passion of mine That's why i am introducing this service.

I also like to inform everyone about a products if it's worth your money or not. I bought many products , E-Books etc.. on this forum. I always wanted to know if the product is worth my money or not. In most cases there was lack of good information and expectation of a product or the vouches where bought and not honest. I am here to try to change that! If you'd like an honest and free review about you're product don't hesitate to shoot me pm ! Absolutely FREE . I would like to contribute to this community by making honest review's.

Here are some examples of reviews i made:

[Review 2 - Dream Revenue](#)

[Review 3 - Kevn's Account shop](#)

[Review 4 - Crypter Labik's abstrac crypter](#)

[Review 5 - Kevn's Netflix Shop](#)

[Review 6 - Flowcrypter](#)

So if you want a product of yours reviewed do not hesitate to shoot a pm ! :)

Kind regards,

I think it's great that you are also helping this community by doing a review about it!

In my opinion you are not a leech , but just trying to help . I do not carry any hate against anyone who is trying to help so i wish you good luck with your reviewing service as well!

They let me test their product indeed. And i write a honest review about the product and give tips how to improve the quality of their product. And give an opinion of the product in the eyes of an user. I want to prevent LQ products being sold on this forum. Therefor my service will be free and willing to invest my own time in this to make this forum a better safer and fun place to trade/sell/buy your products (especially for beginners.)

i hope this makes your question clearer .

I wish you a great day!
