Thread: [Twitter Verified Account Unlocking Service.](#)

Just OG Names - January 18, 2017, 2:20 pm

I had 2 verified accounts on twitter and they both got locked and I didnt have the OG email with them. So i did some research and I was able to contact twitter support and have them change the email, ID and password on the account without losing its verification badge.

I will be doing this for free for a couple of trusted users.

Let me know. I have Both of the verified accounts under my info now. So its 100% secure.

Info that is blocked is because I want to keep it secure. Interested in buy 1 of them PM me I will sell for the right price.
