Well i played the CB of this weekend and yea it's fun but i dont know about all of the hype around it, i think the game has been overhyped.

I know it's going to be a disappointment like most of the Korean MMO's that came out in the west, Especially Archeage and Black Dessert. Blade & Soul is pretty good though, so hopefully Revelation Online lives up to the hype.

Revelation is great, and pretty hard expert 1/2/3* instances.

Grind for lvl/equip hard, p2w is not really too big difference between non pay
