Thread: [3pic group member spreading over HF \[uid=3082949\]](#)

Black_Swan - January 19, 2017, 8:43 am

Okay guys I am talking about this guy here

[GeekedUp](#)

So apparently, he saw on my profile that I have been questioning about Bitcoin Miners and asking if that is still legal on forums and if it's still in use.

So he sent me a PM

Spoiler [\(Click to View\)](#)

I have scanned the file and it was infected ofcourse with a high detection rate.
Also, these are just some of the options that he enabled while creating a server which I found using a simple text extractor.

Spoiler [\(Click to View\)](#)

Then I've sent him a PM explaining him some stuff regarding the thing he tried to infect me and guess what.

Spoiler [\(Click to View\)](#)

And I am not even the only one he tried to infect.

Spoiler [\(Click to View\)](#)

I hope staff is gonna do something about this guy. HF always did have these kinds of problems but nowadays kids like him give HF a bad rep.

EDIT: He opened a thread [HERE](#) a while ago sharing his "FUD Silent Miner"

cli??? ???? - January 19, 2017, 8:48 am

he tried to infect me, too -.- stupid user

PRPS - January 19, 2017, 8:48 am

nicely done hopefully this weirdo can be brought to justice thanks for the alert.

wit - January 19, 2017, 8:49 am

people who do this need to be banned instantly

Black_Swan - January 19, 2017, 8:50 am

And he even opened a thread lol, I found it although he ignored me.

Account of the Gods - January 19, 2017, 8:50 am

oh right, i downloaded the file that he linked me to check it later. why is it always when someone sends u exe on hf its infected

J?son - January 19, 2017, 8:51 am

yes, people do get closed for infecting members

just wait for Omniscient

Null - January 19, 2017, 8:52 am

He said first 5 people to PM gets it, I was probably around 10+ people later and he still sent it. LOL, I scanned it as well, shoulda posted a thread.

Larsenpower - January 19, 2017, 8:53 am

Seems like a legit report. Hopefully, this user will get the correct punishment asap

Black_Swan - January 19, 2017, 8:55 am

I would kindly ask a staff member to close this thread as I've opened a community alert here.

Infecting HF members is a violation so hopefully soon right.

Hu??n?TeR? - January 19, 2017, 8:58 am

What an absolute piece of trash.

Keep it here. It has nothing to do with the marketplace.

Since you can create community alerts there, I think it suits in the section very well.

SoulZeh - January 19, 2017, 9:02 am

Forward the private message to Omni/Staff and he will be dealt with.

I PM'd Omni 2 times, but regarding my lost HF account access..

So I don't want to bother him, I hope someone from the stuff will see it.

SoulZeh - January 19, 2017, 9:05 am

You should of only PM'd him once, Also, this is different. A member is trying to infect other members which is not allowed, so PM'ing him or any other staff member with the PM you got sent is fine, but only once..

Lost HF account access is completely different, you do not pm him about that, you use the contact form.

Black_Swan - January 19, 2017, 9:07 am

Yeah I know that.

However he didn't reply to my message for 5 or 6 days. And my account is about to be closed soon because I didn't have access to it for almost a year. That's why I sent another one lol. And I am sending this thread to someone of the Staff members.

SoulZeh - January 19, 2017, 9:08 am

Well, I think Omni is pretty much giving up on helping account members out now due to all the hassle, Just be patient and do not bug him or rip this account.

Yeah that's what I've heard as well. I do understand him, but I hope I get my account back ?

easy fix: don't trust anyone
don't even need an ebook for that trick

what a sad lil kid. he'll eventually come back too lol

Spoiler [\(Click to View\)](#) maybe i should've posted this on the new thread

mothh - January 19, 2017, 9:28 am

He also tried to infect me.

Proof:

<https://i.imgur.com/ouUYiu2.png>

Armada - January 19, 2017, 9:50 am

Confirmed the file that was sent to OP is fucking laced with a backdoor.

Fuck this user, should be bloody well closed IMO.

Hydraxus - January 19, 2017, 10:19 am

Wow, what a pity for a user to be doing something like that.

Bluffer - January 19, 2017, 10:23 am

Hopefully nobody is stupid enough to fall for it.

(Jan 19, 2017 09:50 AM)kknwn Wrote: [\[CITE\]](#) oh right, i downloaded the file that he linked me to check it later. why is it always when someone sends u exe on hf its infected Except this guy.

Eagle 95 - January 19, 2017, 10:44 am

Thank for reporting it. It is indeed infected. To all members who have been possibly infected, please to go White Hat Help forum & run all malware scans you have on your computer.
