That was fun to watch. Thanks for the share.

That gtr is absolutely sick, I'd take that over the Huracan any day.

Nice video, shame the lambo guy had to turn into a dick. Its a built skyline, not sure what he was expecting.

Yeah that was kind of bullshit. I don't know the rules of street racing but the lambo guy had every right to be pissed and not want to pay.

This is why skylines are beautiful.

Yerrrs - January 19, 2017, 2:00 pm

Anyone would assume the lambo would win but if it's against high tuned cars... rip

Villxin - January 19, 2017, 2:11 pm
