Not really a suggestion (IDK, maybe?)

But more or less wondering why the group leaders can not sticky/unsticky in the groups sub forums?

I would really find this useful for Legends being Raymond is away and busy AF.

I'm sure this was a feature but it got abused by leaders in the group, I may be wrong though.

I think the group owner would have to tell Omniscient to make the person an actual moderator of that certain subforum.

That would seem logical.

Hopefully I can raise Raymond from the grave to maybe get this acted on.

Yeah, but there can definitely be more than 1 sub-forum moderator. Good luck!

It costs \$25 to add a moderator to each sub forum iirc, but you cannot add one to the main SF without special exception from Omni I think. Only the 2 sub-SFs

Sighs

Well shit, ok.

Thanks for the reply.

Group leaders are not moderators and I have to limit and restrict what moderator actions are given to members. Some groups have a half-dozen leaders and many leader positions are sold. So changes such as your suggestion effect a lot more than simply stickies.
