Thread: [President Donald Trump](#)

Hydraxus - January 20, 2017, 9:46 am

Just a couple minutes ago Donald J. Trump was inauguration into the white house. How do you feel about this? People in my school were saying things such as "I'll shoot Trump. And Hillary would be president and pardon me." The hate on Trump is too much. He really isn't that bad... Why would he want to screw up his presidency? Yeah he's an idiot, I guess... But still.

?ndrew - January 20, 2017, 9:49 am

Well they are retarded because if they shot Trump, Pence would become president not Hillary lmao

Lower taxes, Drugs tests for welfare recipients, more secure border. What's not to like?

Seeing the title of this thread instantly triggered me. I need to write on my Tumblr blog now.

Well he didn't get shot.

Can he still though? Is it over?

BR?ND?N - January 20, 2017, 9:52 am

Your friends are idiots by the way. In the even Trump is killed, Pence becomes President. If Pence is killed, fairly sure it's the Secretary of State.

Bluffer - January 20, 2017, 9:53 am

They must have a lot of secret service protecting Adolf Trump today. I'm surprised he wasn't executed yet.

I thought the same. They're a grade older than me as well haha.

You know... maybe how he wants to restrict drug use (when all drugs should be legalized) maybe

how he's literally taking America back a decade, maybe how he's an idiotic 70 yr old man who has no idea what Americans want (yet over 50 million hillbillies voted for him)

Maybe internet surveillance increasing... because we all want that right.

Indeed. Not sure what was going through their mind. And Pence would be even worse than Trump.

Hym Cyclops - January 20, 2017, 9:58 am

As a liberal shooting him would be the worse thing to do. Watching him fail over the next 4 years and watching conservatives react is much better...

domien - January 20, 2017, 10:00 am

I am not a american, let's make that clear first.

But from an outsider, I think trump was the best choice. It will be good for my country and the whole world that the us and russia will negotiatie. tbh, I didn't see hillary sitting down with Putin. I heard some rumours she's very fake , though but I leave that for you.

The issue with your logic is that you think Hillary wouldn't fail.

If anything both of them fail.

I mean, I'm sure that is one of the biggest reasons people chose Trump over Clinton. I'm still a Bernie supporter though.

Both are fake.

Trump isn't truly an idiot, he played a role. Something he done his whole life must I mention. To win over a population of idiots.

I mean, both candidates were unfavorable but it is what it is.

You sound like you don't understand anything.

Firstly, the popular American vote didn't elect him, that doesn't count and it has never counted. The electors from the electoral college voted him in to president. Some electors are required to vote for the candidate that got the majority of the vote depending in which state they're in, other states they're not, just look at Washington state, an elector voted for a bird and another voted for Bernie Sanders but I think that was invalidated. You get my point though, the American people didn't decide shit when it comes down to it.

Secondly, who is the alternative to the guy you call unfit? The lady who has seizures in public and is known to have a medical history from fainting a few years back? Trump might be on the chubby side of things, but at least he doesn't collapse at the WTC on 9/11 and is forced into a car, or has a weird ass spaz then says that the coffee is great. Out of the duo, he is definitely the most fit choice you could of done.

Racist? Got proof of that? I know that you're probably going to quote something he said about illegal immigrants smuggling in drugs or being rapists sometimes, but illegal immigrant in itself isn't a race.

You act like growing up in the 70's is a bad thing too. Let me remind you that the Jim Crow bullshit didn't exist at that point anymore. That's one of America's turning points, where they were truly great (until inflation hit hard in the late 70's). Let me remind you that in the 60's/70's the civil rights bill was enacted that gave blacks the same rights as whites, then you have the sexual revolution where people did the hippy shit. Those are all things that paved the way for today where being gay, lesbian or a tranny is okay. Tell me more about how being raised at that point is backwards, now.

If you're going to talk politics, dude, at least try to form a good argument instead of the ad-hominems that you have used in your sentence.

An?iety - January 20, 2017, 8:44 pm

Plain and simple if you can't come up with at least 1 sensible reason why Trump wouldn't make a good president then you are an uneducated swine.

Deutsche Bank - January 20, 2017, 8:44 pm

If you need a reason for Trump to be president, look at South Africa Post Apartheid and explain to me the difference between it and the current state of America.

Tighter border security, better international trade deals and less dependents on the benefit. If you don't support that as an American Citizen, I don't know what to say.

Lmao. This is how Trump haters are, no sound argument. Just insults and misinformation they were fed from buzzfeed.

Angelus - January 20, 2017, 8:53 pm

I think that we should just accept the fact that he is our president for the next four years, possibly eight.

I'm tired of hearing all the liberals and democrats crying about something that was decided months ago.

Both were terrible candidates, and they were ruthless during campaign, immature as well.

Just glad that I don't have to worry about this shit for another 4 years.

Everyone wants change, you got change, an economic power and money guru as a leader, with strong opinions and values. If you want even more change, take this advice "The first step to changing is accepting the things you cannot change". We could've changed this in November, but that is the past, now we must make do with what we have and stand strong.

MeltyNet - January 20, 2017, 8:57 pm

The kids at your school are dumb, if Trump dies, Mike Pence becomes president and not Hillary.

There is no reason why people are hating so much, IMO we should just wait to see how things go, only time will show if he was the right choice :)

Buzzfeed have many problems of their own, that aren't even related to politics.

I'm willing to make an argument against Trump. However, I believe there's a difference between either unconditionally supporting someone or supporting someone and having criticisms along the way. The problem with a lot of people's attitudes when it comes to politics is that they expect you to pick a guy and support him regardless of his actions. Only a simpleton would think like that. Whenever you write a criticism about <insert politician here> you get told that you must not support him. That's not true though. You might support them across the board, but on particular issues you have a disagreement with them on it. There's nothing wrong with that, if you have a brain, but a lot of people who are in politics don't. It's not just with Hillary supporters, I see it with Trump supporters too. I'm a Trump supporter myself, but I disagree with him on say 45% of the issues. I'm willing to think, then research, then talk about those issues in criticism of him. That's the only way the country can improve. It's unfortunate that we have to pick someone that we disagree on with 45% of the issues on. If we had a direct democracy I would absolutely be willing to support ideas that I agree on and vote against ideas that I disagree on. Direct democracy, at a state level preferably, would be the best way for the country to advance forward, instead of having this two party dictatorship which further centralises power in Washington.
