Thread: [\[Source\] CheapMetro Theme / Visual Studio look-alike theme for WinForms](#)

gigajew - January 20, 2017, 1:02 pm

Hey. This is my new theme. It has it's own controls, but it's also highly compatible with the default controls, like the System.Windows.Forms.Label.

Control list:VSCheckBox

VSMenuButton

VSPanel

VSGroupBox

VSStatusStrip

Features list:

VSStatusStrip.SetBlue(); //turns the statusstrip blue

VSStatusStrip.SetOrange(); //orange

VSStatusStrip.SetDefault(); //default

What do you think about it?

When you make your form into a VSForm, just change the inheritance on your regular form. So like this:

Triangle backcolor in "build button" is a bug or a feature?

I just printscreened a picture in visual studio and put it there, it fully supports transparent images just like the normal buttons

why didn't you put all controls classes into one and post to pastebin ?

btw it looks nice.

I may do this when I update it

debug - January 20, 2017, 4:35 pm

Please upload to a non-cancerous host like Dropcanvas.

If you are doing it, then do it properly:

1. Border color of the window should change with activity. When focused, it should match the statusbar color and when unfocused, it's gray.
2. When you hover your mouse over 'build' button in your .gif, the back. of the image does not update with hover.
3. That resizer(or whatever it's called) in the bottom right looks ugly LOL
4. Win10 titlebar with vs theme? Looks odd.
5. Actually, the shadow color (or glow) of the vs window also depends upon activity and is the same as border color just with a lower alpha. Just sayin' coz the default win10 shadow is also good.

Thank you, it is much appreciated

Looks pretty good.

My only preference would be to pick a new color for the title bar. The white doesn't seem to fit.

Thanks! The white can be changed on windows 10 by right clicking the desktop and customizing it

Right, but that would mean the user has to change the title bar for all of their applications.

Ar1a - January 21, 2017, 12:47 pm

it looks really Cool

try to add more controls like textbox and button to it.

Malum™ - January 21, 2017, 4:31 pm

I think this is a pretty good start. It definitely has the same feel and color scheme as VS. Keep working on it :)!

RaStA_ToXiC_91 - January 29, 2017, 5:33 am

Download link is dead :/ can you reupload it ? thanks you

Zippy™ - May 25, 2017, 3:30 am

Really Cool, would like to see some more controls! Thanks for releasing this!

gigajew - May 25, 2017, 10:38 am

I don't have it on my PC anymore, sorry. Maybe some member on here saved it.

Correct.

BoliBerrys - May 26, 2017, 1:43 pm

Oh rip. This theme looks really good, but not on Github and link is broken :/

DeStilleGast - May 28, 2017, 1:11 pm

It's a shame that the link is down, it is kinda looking nice for me

GreyPhantom - November 30, 2017, 2:56 am

Hoping somebody could give new links.

YourAverageTurk - December 1, 2017, 11:26 am

Looks pretty nice, Good job :)

SLIDERzz - December 18, 2017, 10:25 am

Please fix the link because it's broken

th3s3cr3t0n3 - March 26, 2018, 1:51 am

It's okay, but definitely expand/improve. Gotta get a title bar to work and look right bro add some more control support then you got a 10/10 theme.

Grooty - July 10, 2018, 1:25 am

Please upload source in Mega.nz

GreyPhantom - July 10, 2018, 5:50 am

Bru, great theme. Got some new best theme collection again. Thanks

Update download link bru, seems dead.

Whatever mate, you're chatting a bit of shit here seeing as it's a source, it doesn't become irrelevant just because of age.

Besides, you have now inadvertently grave dug the thread as well now haven't you. Are you the forum police??

Its not a gravedig when you reply to a gravedig

Its just retarded to see "oh hey look its a new release! Nvm this is from 25 years ago"

GreyPhantom - July 12, 2018, 6:47 am

I'm sorry for grave digging, but theme seems still to work though.

Maybe this thread should be locked/closed to avoid future grave digging.
