Thread: [\[VOUCHED\] Resume Writing Service! \[CHEAP\]](#)

SIM-2273342 - January 20, 2017, 6:10 pm

This service has been in pretty high demand lately, so I thought I'd open an entirely new thread for this.

What makes my service unique?

- [*] Custom format given by a professor
- [*] Cheapest price for a resume and cover letter both
- [*] Tons of vouches on my writing service and ability

Why does this custom format matter?

The professor who gave me this format spent 15 years as a journalist at a newspaper agency; much of his time revolved around reading applications and hiring individuals. With this, he knows the specific format and content that is effective in getting the best response from all employers.

What is the going price?

- [*] Resume alone - \$10
- [*] Cover Letter - \$10
- [*] Resume and Cover Letter - \$15
- [*] The Resume Format alone - \$8

I look forward to doing business with many more members.

Amazing service. I had paid this user for a resume and cover letter. Quick and the delivery was beyond my expectations! :)

Vouch for Romania. Fellow writer here on HF and I can attest to his legitimacy.
