Any predictions? I am personally looking forward to what Godsent can do. I would like to see Optic do well too. What are your thoughts?

Na'Vi or Astralis wins the final.

Na'Vi and Astralis makes out from the group stage without a loss.

Flipside or Liquid loses 0-3 in the group stage.

North will win over Gambit as the first game.

Gambit will win over Fnatic as the second game (hoping for Fnatic though).

SK will win over Hellraisers as the third game.

Virtus Pro VS Optic Gaming - This is a 70% game for VP in my book, Optic can win if VP is underperforming.

Na'Vi will win vs mousesports as the fifth game.

Envy vs Liquid - This is a really 50/50 game. I wouldn't dare to bet anything on this game, especially as it's a best of 1.

Astralis will win vs Godsent (even though i kinda hope for godsent just because they are from sweden)

Faze will win vs Flipside.

=)

Na'Vi and Astralis at the Grand Final, 3-4th between North and SK imo.

I have no idea what the results will be. I'm just trying to catch the drops.
