Information

What is Aequitas?

Aequitas is a group for IT Security enthusiasts, experts, learners as well as software developers, and other IT enthusiasts.

What will Aequitas be doing?

The main project of Aequitas in the beginning is to provide malware removal as well as malware removal education for free to HF members.

You can think of this project to be very similar to [Malware Removal Team](#) and [HiJackThis!](#)

There are plenty of other projects that will be done within the Aequitas group, but at this time we do not want to reveal what is being worked on.

How do I join Aequitas?

We have a very strict recruitment system, however, we're currently not ready to accept new members as we are still putting together the structure of the group.

We will recruit users who are very passionate about IT Security, both by having a invite system, as well as a recruitment system where you can submit your application.

Some of the things we look for in a potential recruit is the following. Experience and skills within Network, Development, Malware Analysis/Removal and Pentesting

Passion for sharing of knowledge and open source development

Maturity - We value your maturity alot as you will be representing Aequitas if you join us

Our recruitment thread will be up soon, and we will start taking in new members.

All the best with your group ra1d and sorry for not being able to deliver a worthy userbar. Hope to see some good projects from your group in the future.

Best of luck. ?

?Creation - January 23, 2017, 6:49 am

For my next study, I want to do Network and Security Engineering, hope I can learn something from your group or even join after I have some more knowledge.

Goodluck with the group and group recruitment in advance.

I'm very excited to see this group formed. Take it slow at first. ?

@The Grim - when did you learn from him? How come you don't have that MRT award? ?

He was taking apprentices personally, nothing to do with MRT. He made all the apprentices join another forum and he taught us there.

He got closed before MRT as far as I remember.

I'd be highly interested in regards to learning from you guys, is that a possibility or is it pure experienced members only?

It seems rather intriguing and educational, let me know regardless.

Cooligan - January 24, 2017, 5:56 am

I'm very pleased to see this, we've needed a malware removal group back on the forum for quite a while now.

I've been saying for a little over a month now that it's time for a change in the HF official groups scene, and now, I'm finally starting to see all these good groups come out.
Makes me happy.

Can't wait till recruitment rolls out, this is absolutely 100% something that I want to learn about/how to do.

Dredd - January 24, 2017, 6:00 am

Good luck with the group.

P.s. if you want to buy me a birthday present I'll take a group invite instead of some carded 350euro headphones <3
