Hey guys,

I've recently searched on the HF if there's any chance I could get a Spotify premium account for free.

Unfortunately I've only found people who charge few bucks for that so I tried to look deeper somewhere else and guess what? I'VE FINALLY FOUND SOMETHING!

SPOTIFY PREMIUM MOD APK:

-
-
-

Mod info:

- Unlocked Spotify Connect *
- Seek FWD button added to information bar/tablet mod
- Visual ads blocked (For most countries)
- Audio ads blocked
- Seeking enabled
- unlimited shuffle
- Choose any song
- Extreme audio unlocked
- Repeats enabled

*Spotify Connect is unlocked for CC video (with HDMI cable) but NOT for CC audio. Spotify video available in some countries.

About offline mode: Spotify songs are encrypted at source and the decryption key is tied to your account details,so this will never be hacked within the apk. Better than nothing.
