PM stands for Private Message

it is this button right here: <http://prntscr.com/dzcwa0>

You can use this by contacting members here person to person. Like a whatsapp conversation.

yeah i got that part lol, but does that mean i need to just comment on 25 threads

Yin Yang - January 23, 2017, 10:04 am

It doesn't have to be quality either

Yes that is true, but don't make shitposts so you can PM faster.

Add posts that helps others and contains value to the thread.

Regular (non-upgraded) members need to have 25 quality (meaning non-spam) posts. Also, I strongly advise you to take a look at help documents in order to familiarize yourself with the rules & how things work around here. It will also save your account from getting warned or banned.
