About The Marketers

We are a group of members focused on improving the hackforums marketplace, marketing techniques, quality of hackforums in general, and monetizing methods. Our group requirements are more strict than others to keep only the most HQ members in our group. We are also very active in the marketplace and we love to help others and help them succeed in selling and marketing their products.

What will be your policy regarding future members in your group if they're being accused of scamming with a legitimate DD?

Blacklisted till resolution, then possibly added back if the deal was resolved smoothly.

We will be very strict in accepting members so there's only a 1% chance someone on marketers will scam.

Nuworld - January 23, 2017, 11:05 am
