EDIT: holy shit holy shit it's working again ??

KING - January 24, 2017, 6:02 am

It's better to use your this new account. As you will hardly get back your old one. Because most old/inactive accounts were banned.

Why the fuck would Omniscient break his own rules for stupid money?
Think that bribing him will make everything better for him lol?

Since you did not mention it; why don't you either gather enough posts to PM him or use the contact form first? He'll probably help you since you had a good account but still..
He doesn't like when this happens.

Good luck.

Anubis - January 24, 2017, 6:07 am

LOL my old friend. Good luck. Honestly I doubt you're getting it back.
Although Omni is not that "rude" as he used to be, he won't do shit I assume.

Better start working on another account and making this forum better.

Because I noticed this.

You never had more than 3k rep LOL.

SoulZeh - January 24, 2017, 6:08 am

Funny this, trying to bribe Omniscient to Open a CLOSED account, I have no idea why people honestly find it so hard to believe that, when your account is closed it's closed, also when it's repfucked, it's repfucked, you cannot get it back.. Get some savy, honestly, use the contact form try bribe your way into there.

How is it a bribe? It's a sign of respect for him to put in the effort of helping someone out. Everything is 100% genuine as he can see from my IP etc.

If he doesn't want to help out I understand, he is free to do as he likes. But it would mean a lot to me if he did.

If you would have looked at OP's main profile you would've noticed that his account is not even closed.

As for OP: get 25 posts and PM Omniscient directly (be aware that he has a no nonsense policy for these things in general) or just wait until he replies to this thread.

And your TS on your main account is showing that gauth was disabled on 10-14-2016.

It's not a closed account. I simply lost access to the gauth thing.

Ehm the gauth of the account you linked: Disabled 10-14-2016

so why can't you login now again?

SoulZeh - January 24, 2017, 6:12 am

Wait, this account here was made in September last year? Just because you have a registered matching IP with another member or whatever it says, doesn't mean you actually have that account, like people said, your gauth is disabled.

Holy fuck you are right! Apparantly Omni already removed the gauth haha I'm back baby

EDIT: never enabling that shit again, please close this thread.

I hadn't tried resetting the password after this thread (same date):

<https://hackforums.net/showthread.php?tid=5433523&page=2>

But today I was able to do it fine with no issues (hadn't tried it again until you showed me this disabled note). Thank you.

Anubis - January 24, 2017, 6:17 am

If your IP's are matching and no changes made,

Just get 25 posts and hit Omni with a PM and hope for the best.

Post back here if you get your account back.
