You Use an App via FB which will like other people's Comments, Pictures, Statuses who uses the Auto Likers.

What do you need :

Facebook account with : 18 + Age, everything have on PUBLIC so PPL can autolike your photos.

One of the good sites is : My liker . com

Site : My liker .com

Here's how to setup the FB settings & The Whole tutorial : [http : // www . myliker . com /how-to.html](http://www.myliker.com/how-to.html)

After you are done you will get to this page : [http: // prntscr . com/csnff1](http://prntscr.com/csnff1)

You choose : FB auto liker & get to this page : [http : // prntscr . com/csnfwo](http://prntscr.com/csnfwo)

Then you just click Auto Like on the Photo you like the most or where you want the likes and it will be random PPL liking your Pictures.

After that you need to wait like 15minutes to use it more time.

Now to "bypass" this, what you do is search for another auto like sites !

Some Good sites : Myliker . com
