Hey Hackforums, I have a great guide on getting started with e-whoring that is not saturated , and can give you good money depending on the time that you put into it.

Free support will also be provided by me, for as long as you have proof of purchase.

3 vouch copies will be available to those who are l33t or ub3r. (All vouches are handed out)

I do not feel a need for a thread design, so I will just leave the link here:
