Probably because you lost access to your Gauth, people are starting to get repfucked if they lose their account.

You automatically get rko'd if you forget your gauth

Are you fucking serious? I literally broke my phone that had Gauth.

Has this website really fucking come to this fuckery. Like I need to get repfucked because I don't use Gauth ever and broke my fucking phone.

It's up to you to write down the recovery code, you're responsible for your account bud.

Lost Guath = RKO

You were told this in the email reply I sent you. Now you're banned for RKO complaining.
