Wanna sell this site?

pm if so

Noisy - January 31, 2017, 12:29 am

Would be nice to at least be able to see some posts or have a limited amount of threads etc guests are able to see, as if i'm not allowed to see anything it doesn't really give me a feel of what the site can offer, however other than that, the stuff i can see doesn't seem to bad, theme is quite good and also doesn't look like there is an overload on categories.

Stendoh - January 31, 2017, 11:08 pm

Thanks for the feedback, I'll make it so statistics and threads are able to be viewed without being logged in ?

Let me know if you want to sell your site.

I spammed a whole bunch of code on there just doing some "thinking out loud" and trying to share some concepts with people.

I guess that wasn't the right platform to do it on. Wish there were more like it. That's what people really need these days, something more casual, fluid and adaptable to the "stream of conscious". Maybe that's some feedback.
But regardless I'll be working on the same

I'll have to get a skype just for this. I haven't used skype in so long my old account is probably dead. I have discord.
I'll be able to get skype 8 hours from now. I'm at work.
