Thread: [Anime Nerds](#)

Bill Gates. - January 26, 2017, 10:35 am

Hi, I'm Bill Gates and I run a small channel and I sometimes use visuals from old 80s, 90s and current day Anime's but i'm never sure of their names. Is anyone here available to help me because I don't want to spam threads. Or is there a way I can find the anime myself.

PS: You are not nerds, that was simply to catch your attention. nerds

PPS: I don't know what anime this is and this is the last time I will ask here.

I can't offer help on the anime, but I can give advice, try to do reverse image search on a screenshot of the anime you use!

I use gifs and videos so it's a lot harder. But thanks anyway.

Idk about the anime, but I wouldn't retract your statement about anime folk being nerds, on here I'd of thought most users would take it as a compliment.
